The Peter

CASCIO NURSERY

2600 ALBANY AVE., WEST HARTFORD 17, CONN. • ADams 6-1609

You, each and every one, are always welcome at The Peter Cascio Nursery. If you like plants, you will enjoy browsing through the thousands of plants in our sales-ground and growing in the Nursery. We try to carry every worth-

while plant hardy in this region. Of our 200 acres in West Hartford, Bloomfield and North Granby about 100 acres are planted.

1960 marks the 35th year I have been in business in West Hartford—twenty-six years under the name of The Peter Cascio Nursery and nine associated with C. H. Sierman, Inc.

In the year ahead, we shall strive to maintain the high standards of quality and service already established.

With an excellent growing season just passed, our stock is at its peak. Won't you come in soon and see for yourself?

PETER J. CASCIO

First President National Landscape Nurserymen's Association, 1939-1941; President American Association of Nurserymen, 1952-1953.

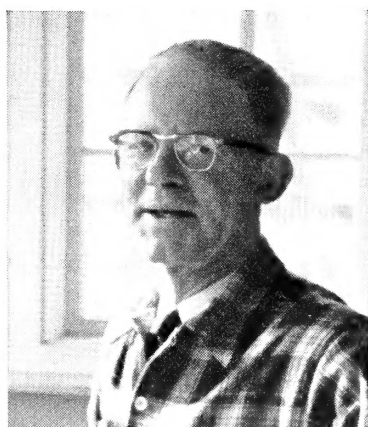

Peter J. Cascio.

W E L C O M E T

PETER B. CASCIO

General Manager. B. A., Middlebury College; 2 years Harvard Graduate School of Design, toward Masters degree in Landscape Architecture

FRANK VAN VOORST

Garden Center Manager. Graduate Horticulturist from Holland. Thirty years' experience in nurseries and landscaping in Holland, England and America

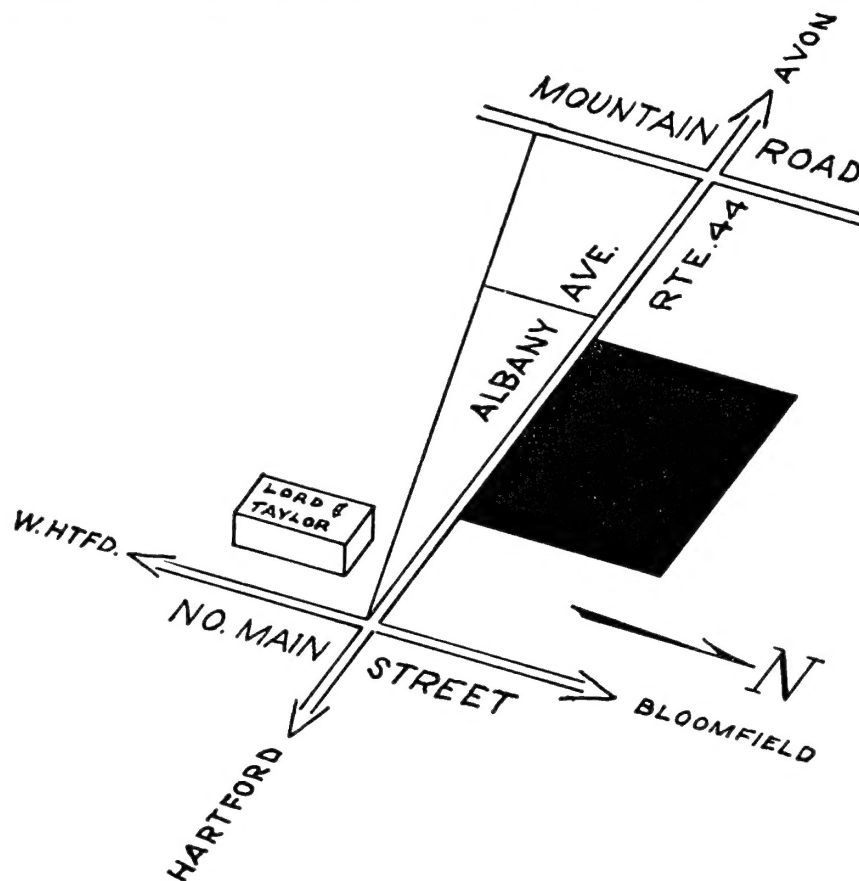

RAYMOND C. HOPKINS

Superintendent. Thirty years with Peter Cascio. More than fifty years of horticultural and landscape experience

A. LUCIAN CASCIO

Landscape Salesman. Studied at Cornell, Kenyon and presently University of Hartford toward degree in Landscape Architecture

HOURS:

Monday through Saturday: 7.00 a.m. to 6.00 p.m.

Sundays from March through July 4 and Labor Day through Dec. 24
9.00 a.m. to 6.00 p.m.

YOUR PLANTS NEED YOUR CARE

All our trees, shrubs and other plants are healthy, carefully handled and scientifically grown. They are regularly government inspected, for which we hold State of Connecticut certificate No. 148.

Given careful soil preparation, installation, adequate water and continued care, they should succeed. Because plants are living things, with their health dependent on your care as well as climatic conditions, we cannot guarantee them after they leave the nursery.

If complications arise with which you cannot cope, your Cascio nurseryman will be only too glad to advise. We have a sincere interest in your gardening success.

If paid within 30 days, any stock planted by us that dies during the first season after planting will be replaced at half the price of the plants plus the cost of planting, provided proper care is given material. No guarantee for plants that die from causes beyond our control, such as winter-killing, fire, drought, etc.

NOTE

This catalog does not contain all the varieties of plant material we have available. The prices used herein, are extremely accurate although subject to change. Every salesman will have a current price list listing all our materials and any revised prices which may occur. Specimen plants will be priced by the salesmen upon request.

PLANT NAMES AND CATALOG ARRANGEMENT

Authorities differ occasionally on the correct name for some plants. To avoid confusion we have selected as our reference the Revised Edition of *Manual of Cultivated Plants* by L. H. Bailey and the Staff of the Bailey Hortorium at Cornell University. Occasionally some horticultural varieties or cultivars are not readily classed botanically and are listed with the genus and cultivar name only. In the distinction between Azalea and Rhododendron we follow the horticultural practice rather than strictly botanical grouping of all as Rhododendrons.

To aid most who use this catalog, the common names are listed first in capitals: NORWAY MAPLE, followed by the botanic name in italics: *Acer platanoides*. Following the new official international rules for plant names, we list cultivar names in single quotes: *Acer platanoides* 'Schwedleri' and true botanic varieties without.

Our catalog is divided into landscape plant groups, as listed below. Each major group is represented by illustrative pages in color followed by brief descriptive listings on the succeeding two black and white pages. Within each group the descriptive listings are arranged alphabetically by botanic name though the common name is mentioned first. In the General Contents below, only a few of the varieties available are listed under each plant group heading.

O C A S C I O ' S

Society for Savings, West Hartford Branch

The National Industrial Landscape Award won in 1960 makes the fifth we have received in the seven years it has been awarded by the American Association of Nurserymen. It is given to the ten top Industrial or Institutional jobs in the United States each year. Only two other firms in the country have equaled this record.

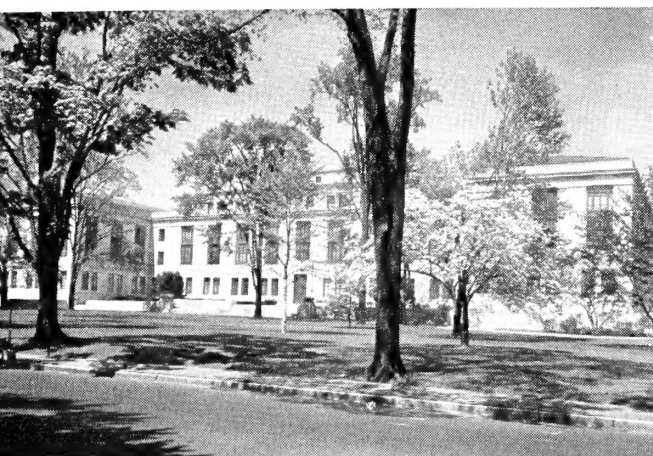

Plant America Awards have been received for the following landscape jobs:

- The National Fire Insurance Co.
- The Phoenix Insurance Co.
- The Statler Hilton Hotel
- The Society for Savings, West Hartford Branch
- The Aetna Life Affiliated Companies, Morgan B. Brainard Memorial Garden

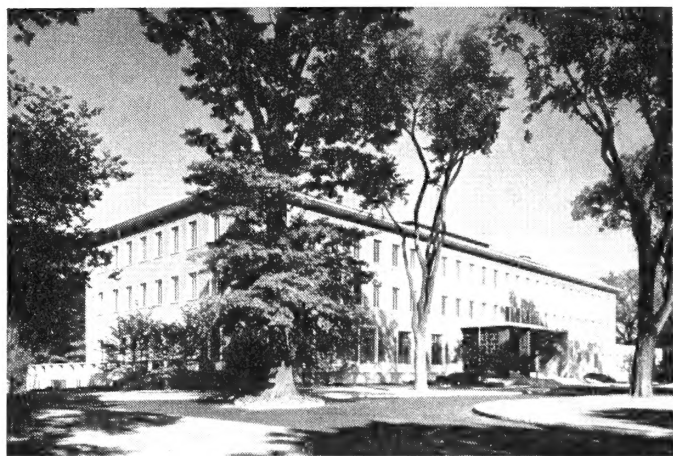

Our staff drew the landscape plans for the new six-and-one-half million dollar Fuller Brush Company Building in East Hartford, and we are at present landscaping it.

Aetna Life Affiliated Co., Hartford

National Fire Insurance Co., Hartford

Phoenix Insurance Co., Hartford

CRYPTOMERIA

CRYPTOMERIA

This unique, narrow evergreen tree of distinct upright form has not been generally available in recent years. The normally dark green foliage appears silvered at the tips during the summer, turning somewhat bronze during winter. The tufted appearance and sharply positive form are prized for specimen and accent use.

Though generally hardy, Cryptomeria is best when protected from the severe drying of winter winds. When planted in exposed locations, a protective winter spray of Wilt-Pruf is helpful.

HETZ JUNIPER

JUNIPERS

Hot, sunny and dry locations are ideal for the Junipers. All are outstandingly hardy and require little care beyond annual pruning of the vigorous kinds.

Among the upright types, Keteleer stands superior to all others with neat habit and extreme tolerance of severe wind, sun and even salt water.

Spreading forms vary from the vigorous and higher-growing Pfitzer and Hetz through the moderate and lower-growing Andorra, down to the very slow Sargent and prostrate Bar Harbor. Colors vary from silvery blue Hetz through grey-green Pfitzer and Sargent to the reddish bronze winter foliage of Andorra and Bar Harbor.

NEEDED EVE

SPRUCES

These hardy trees are often called "Christmas" trees for their upright and symmetrical habit. Tolerance of a wide range of soil and growing conditions has made them especially popular in evergreen borders and as specimens.

Norway, pictured here, is most common and much more rapid growing than the ever-popular Blue Spruce. Dwarf Alberta is densely tufted and extremely compact, growing only a few inches each year.

NORWAY SPRUCE

CANADIAN HEMLOCK

HEMLOCKS

No finer evergreen exists for dense, yet informal, hedges and screens than the native Canadian Hemlock. The rich green, short needles are dense on the slender twigs, giving marvelous fullness. Annual trimming of the slender stems can achieve a tight formal or soft feathery look, according to your preference.

A dwarf form, Sargent's Weeping Hemlock, has the same needles on a low, spreading plant with weeping branchlets.

Carolina Hemlock with larger, shining needles, though originally from the South, is dependably hardy.

ARBOR-VITAE

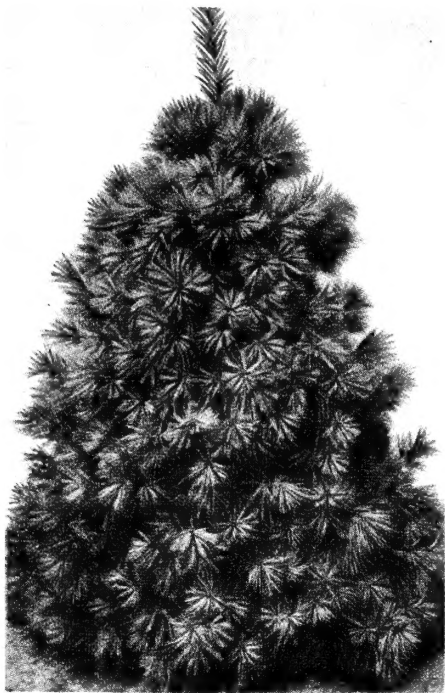

Flat scale-like needles are typical of both the Arbor-Vitae and False Cypress. Both often suffer from their greatest advantage, quick growth, due to overdevelopment for the site.

For a narrow, yet tall, evergreen hedge or screen, choose the Dark American Arbor-Vitae. For bright color accent select the Golden Biota.

UPRIGHT JAPANESE YEW

PINES

WHITE PINE

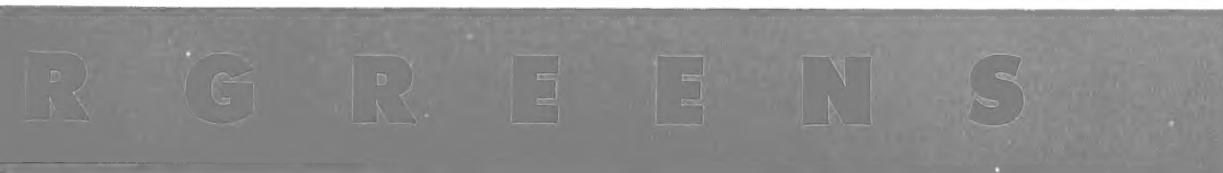

Larger needles make the Pines easy to distinguish from the other conifers. All are easily grown and generally adapted to the diverse soils of this area. Height and rate of growth vary from the Dwarf Mugho, seldom over a few feet tall, to the rapid-growing, native White Pine, reaching 100 feet or more. All will benefit from careful light pruning in early June. "Tipping" or trimming the tips of the long, candle-like, new growth forces more new and shorter shoots, avoiding the openness of long unbranched growth.

For controlled base planting only the Dwarf Mugho can ordinarily be considered.

For specimens, borders, or screens, the three uprights each have special merit. Largest of all is the White Pine, with soft bluish-green needles in clusters of five. Second largest is the Austrian, followed by the Japanese Black, both with coarser needles in clusters of two.

AUSTRIAN PINE

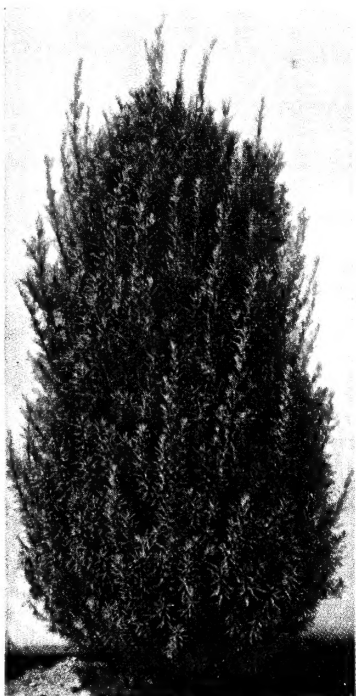

YEWs (Taxus)

Widely diverse shapes and consistently superior results mark the record of the Yews or Taxus in basic home planting. Rich, deep green needles and dense, readily controlled growth are unequalled by any other plants. Bright red berries on Hicks' and the Upright and Spreading Japanese Yews add an additional note of fall interest.

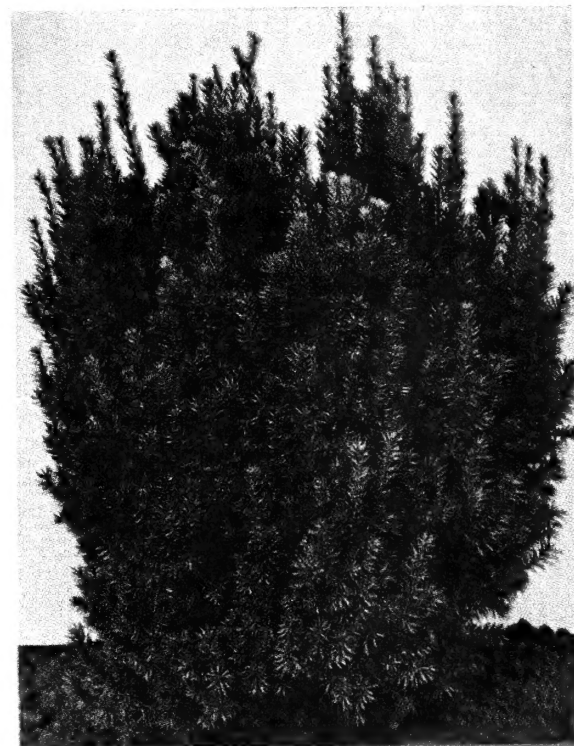

Pictured here are five popular shapes. Others available at the nursery include the nearly prostrate Spreading English the almost black and slower-growing Dark Spreading Yew, and the Dwarf Japanese, an irregularly spreading type.

Our own favorite is the Denseform Spreading type, a handsome specimen twice as wide as high and with an irregular rolling top. Fullness to the ground and natural thickness occur with little or no shearing, due to its fine branching habit.

Yews tolerate full sun or quite shaded locations but prefer reasonably well-drained soil with liberal additions of organic material. Agricultural limestone used once every two years and our complete fertilizer each season will keep them in top condition. Light shearing in early summer will maintain density without the stiff clipped look.

NURSERY

2600 ALBANY AVE., WEST HARTFORD 17, CONN. • ADams 6-1609

B&B indicates Balled and Burlapped stock.

FRASER FIR (*Abies Fraseri*)

Pyramidal, graceful tree. Soft grey-green foliage. Makes excellent clipped hedge.

Hgt. 4 to 5 ft., B&B.....\$11.00
Hgt. 5 to 6 ft., B&B..... 15.95
Hgt. 6 to 7 ft., B&B..... 24.00

DEODAR CEDAR (*Cedrus Deodara* 'Kashmir')

Fairly hardy.

Hgt. 3 to 4 ft., B&B.....\$15.00

HINOKI CYPRESS (*Chamaecyparis obtusa* 'Gracilis')

Pyramidal form with dark green leaves. The flat leaves make outstanding contrast with the light grey-greens of low, spreading Junipers. For best growth we recommend planting in full sun and with plenty of Peat-Humus mixed in the soil. If possible, protection from severe winter winds will prevent burning of the rich green foliage.

Hgt. 6 to 9 in., B&B.....\$4.95

BLUE MOSS CYPRESS (*Chamaecyparis pisifera* 'Squarrosa')

Striking, deep blue-grey, plume-like flattened needles stand out when planted against darker green Taxus or Hemlock. Again requires full sun for good color and maintenance of a dense, bushy habit.

Hgt. 2 to 2½ ft., B&B.....\$7.95

CRYPTOMERIA (*Cryptomeria japonica* 'Lobbii')

Unique, upright, narrow evergreen tree with dark green foliage turning somewhat bronze in winter months. Especially suited to specimen and accent use because of its sharply positive form. Not extremely hardy in the Hartford area. Should be protected from severe, drying winter winds.

Hgt. 3 to 4 ft., B&B.....\$9.00

JUNIPERS

Extremely hardy evergreens with fine flat or sharp needles. All are especially adapted to hot, sunny and dry locations and should be planted only where they receive full, or almost full, sun. One of our few evergreens that will stand a wet location.

COLUMNAR (*Juniperus chinensis* 'Columnaris').

Narrow-pyramidal habit.

Hgt. 6 to 7 ft., B&B.....\$20.00
Hgt. 7 to 8 ft., B&B..... 35.00
Hgt. 8 to 9 ft., B&B..... 40.00

KETELEER (*Juniperus chinensis* 'Keteleeri').

An especially valued variety for seashore and windy, exposed planting sites. Needles are fine, with dull olive-green color. May be pruned from the natural tall pyramidal habit to provide dense, thick hedge. The best upright Juniper.

Hgt. 18 to 24 in., B&B.....\$5.00

Hgt. 6 to 7 ft., B&B.....30.00

Hgt. 7 to 8 ft., B&B.....35.00

Hgt. 8 to 9 ft., B&B.....40.00

PFTZER (*Juniperus chinensis* 'Pfitzeriana').

This most popular, hardy, grey-green, spreading Juniper is extremely vigorous though readily controlled by pruning. With little attention, its spreading branches are plume-like and horizontal. With more attention, it is densely compact, with shorter, spiky, horizontal growth.

Spr. 12 to 15 in., in 1-gal. cans.....\$3.95

Spr. 18 to 24 in., B&B..... 6.00

Spr. 2 to 2½ ft., B&B..... 7.50

Spr. 2½ to 3 ft., B&B.....10.00

Spr. 3 to 3½ ft., B&B.....14.00

Spr. 3½ to 4 ft., B&B.....17.50

HETZ (*Juniperus chinensis* 'Pfitzeriana Hetzii').

Intense blue-grey form of the popular Pfitzer Juniper. Habit and growth are identical, and the striking color provides outstanding contrast with deep greens of many other species.

Spr. 8 to 10 in., container grown.....\$1.95

Spr. 15 to 18 in., container grown..... 3.50

Spr. 18 to 24 in., B&B..... 6.00

Spr. 2 to 2½ ft., B&B..... 8.00

Spr. 2½ to 3 ft., B&B.....10.00

Spr. 3 to 3½ ft., B&B.....15.00

JUNIPERS, continued

SARGENT (*Juniperus chinensis* 'Sargentii').

A dwarf, very low, spreading Juniper with clean, spiky, grey-green needles. Height, even in mature plants, never exceeds 6 to 8 inches. Horizontal branches lie on the ground and are especially stiff.

Spr. 10 to 12 in., B&B.....\$3.50

Spr. 12 to 15 in., B&B..... 5.00

Spr. 15 to 18 in., B&B..... 7.00

Spr. 18 to 24 in., B&B..... 9.00

ANDORRA (*Juniperus horizontalis* 'Plumosa').

More vigorous than the other prostrate Junipers, the Andorra or Plume Juniper grows 6 to 12 inches high, spreading rapidly to 4 or 5 feet in diameter. Summer color is grey-green, turning in autumn to soft bronze and maroon. An outstanding bank cover.

In 1-gal. cans.....\$1.95

Spr. 8 to 10 in., in 2-gal. cans..... 2.95

Spr. 18 to 24 in., B&B..... 5.50

Spr. 2 to 2½ ft., B&B..... 7.00

BURK (*Juniperus virginiana* 'Burkii').

A broad, pyramidal upright form similar in shape to Keteleer, but with a more coarse and bluish-green needle.

Hgt. 5 to 6 ft., B&B.....\$18.00

Hgt. 6 to 7 ft., B&B..... 25.00

Hgt. 8 to 9 ft., B&B..... 35.00

CANAERT (*Juniperus virginiana* 'Canaertii').

Pyramidal form with very dark green leaves. To 20 or 25 feet.

Hgt. 6 to 7 ft., B&B.....\$20.00

Hgt. 7 to 8 ft., B&B..... 30.00

Hgt. 8 to 9 ft., B&B..... 40.00

SILVER RED CEDAR (*Juniperus virginiana* 'Glauc').

Broad open column. Silvery-blue foliage. Ultimate height, 20 to 25 feet.

Hgt. 3 to 4 ft., B&B.....\$7.50

Hgt. 4 to 5 ft., B&B.....15.00

Hgt. 5 to 6 ft., B&B.....18.00

Hgt. 6 to 7 ft., B&B.....20.00

Hgt. 7 to 8 ft., B&B.....25.00

Hgt. 8 to 9 ft., B&B.....30.00

BLUE PYRAMIDAL RED CEDAR (*Juniperus virginiana* 'Pyramidalis Blue').

Hgt. 8 to 9 ft., B&B.....\$40.00

EUROPEAN LARCH (*Larix decidua*)

Grows to 60 feet. Leaves are needle-like, dropping in fall.

Hgt. 4 to 5 ft., B&B.....\$8.95

JAPANESE LARCH (*Larix leptolepis*)

Very tall, slender trees with soft-looking, silvery-green needles during the summer months, turning bright golden-yellow in the fall before dropping. Though deciduous, we include the Larch here with the other conifers. Outstanding as a lawn specimen or may be used for special, light shade on a narrow area.

Hgt. 14 to 16 ft., B&B.....\$100.00

SPRUCE

A hardy group, tolerant of a wide range of soil and growing conditions. Growth is, for the most part, upright and symmetrical, with typical Christmas tree habit.

NORWAY (*Picea Abies*).

Deep green needles on rapid-growing, sometimes slightly open, upright and broad pyramidal tree. Annual trimming in June insures dense branching. Ideally suited to large specimen or border use and often used as permanent outdoor Christmas tree.

Hgt. 18 to 24 in., B&B.....\$2.95

Hgt. 2 to 3 ft., B&B..... 3.95

Hgt. 3 to 4 ft., B&B..... 6.00

Sizes up to 15 ft. available.

DWARF ALBERTA (*Picea glauca* 'Conica').

Densely needled dwarf form with an almost tufted appearance. The color is light green and the habit exceedingly compact and sharply erect. Growth is very slow, usually not over a few inches each year.

Hgt. 12 to 15 in., B&B.....\$5.75

Hgt. 15 to 18 in., B&B..... 7.50

N E E D L

These conifers include a

SPRUCE, continued

SERBIAN (*Picea Omorika*).

Unusual and upright, with curving branches and drooping branchlets. Needles are green with contrasting white stripe, presenting a striking two-tone effect.

Hgt. 4 to 5 ft., B&B.....\$18.00

HOOPS BLUE (*Picea pungens* 'Glauc Hoopsii').

Very silvery needles.

Hgt. 3 ft., B&B.....\$35.00

COLORADO BLUE (*Picea pungens* 'Glauc').

Grey-blue, stiff needles in horizontal layers. An accent plant.

Hgt. 12 to 18 in., B&B.....\$2.95

Hgt. 18 to 24 in., B&B..... 3.95

Hgt. 2 to 3 ft., B&B..... 5.95

Hgt. 4 to 5 ft., B&B.....18.00

Hgt. 5 to 6 ft., B&B.....25.00

Hgt. 6 to 7 ft., B&B.....35.00

Hgt. 7 to 8 ft., B&B.....50.00

KOSTER'S BLUE (*Picea pungens* 'Glauc Kosteriana').

The bluest of all, this slow-growing, upright Spruce is a perennial favorite, though for many years extremely scarce. The ultimate size is large and should be considered in placing this Spruce.

Hgt. 15 to 18 in., B&B.....\$12.50

Hgt. 2 to 2½ ft., B&B..... 20.00

Hgt. 3 to 4 ft., B&B..... 25.00

Hgt. 4 to 5 ft., B&B..... 35.00

Hgt. 5 to 6 ft., B&B..... 45.00

Hgt. 6 to 7 ft., B&B..... 60.00

PINE

Longer, slender needles distinguish this group.

TANYOSHO (*Pinus densiflora* 'Umbraculifera').

Japanese Table Pine. This is a dwarf form of the Japanese Red Pine, with umbrella-like head.

Hgt. 2½ to 3 ft., B&B.....\$45.00

DWARF MUGHO (*Pinus Mugo* 'Mughus').

Low, mounded form with dense, short, upright stems giving a tufted, cushion-like effect. Often combined with darker green Yew or Holly for contrast in foundation planting.

Spr. 12 to 15 in., B&B.....\$4.95

Spr. 15 to 18 in., B&B..... 7.00

Spr. 18 to 24 in., B&B..... 9.00

AUSTRIAN (*Pinus nigra*).

A tall-growing, coarsely needled Pine valued for its resistance to damage from windy, exposed locations. Coarse branching and stiff needles gives a bold character in contrast to the finer and softer appearance of the White Pine.

Hgt. 2 to 3 ft., B&B.....\$7.95

Hgt. 3 to 4 ft., B&B.....12.00

Hgt. 4 to 5 ft., B&B.....15.00

Hgt. 5 to 6 ft., B&B.....25.00

RED (*Pinus resinosa*).

Tall and rapid-growing, with very long needles on reddish-brown stems. Open branching gives interesting structural effect.

Hgt. 9 ft., B&B.....\$50.00

Various sizes available, up to and including height of 20 ft.

WHITE (*Pinus Strobus*).

Soft blue-green clustered needles densely cover the slender branches near the tips. Light trimming during early June keeps this handsome native Pine dense, providing excellent screen or specimen effects. The ultimate very large size and rapid growth prohibit use in base or foundation planting.

Hgt. 2 to 3 ft., B&B.....\$4.50

Hgt. 3 to 4 ft., B&B..... 7.50

Hgt. 4 to 5 ft., B&B.....\$9.50 to 13.50

Hgt. 5 to 6 ft., B&B.....15.00 to 18.00

Hgt. 6 to 7 ft., B&B.....20.00 to 25.00

Hgt. 7 to 8 ft., B&B.....30.00 to 35.00

Hgt. 8 to 9 ft., B&B.....40.00 to 45.00

Hgt. 9 to 10 ft., B&B.....50.00 to 60.00

Hgt. 10 to 12 ft., B&B.....65.00 to 80.00

Hgt. 12 to 14 ft., B&B.....85.00 to 100.00

Hgt. 14 to 16 ft., B&B.....100.00 to 150.00

Hgt. 16 to 18 ft., B&B.....150.00 to 200.00

Hgt. 18 to 20 ft., B&B.....200.00 to 300.00

SCOTCH (*Pinus sylvestris*).

Rapid-growing, handsome tree, especially when young. Good for windbreaks.

Hgt. 3 to 4 ft., B&B.....\$10.00

Hgt. 7 to 8 ft., B&B..... 35.00

Hgt. 8 to 9 ft., B&B..... 60.00

Hgt. 9 to 10 ft., B&B..... 75.00

E D E V E R G R E E N S

wide range of shapes, colors and textures, providing varied year-round beauty.

PINE, continued

JAPANESE BLACK (*Pinus thunbergii*). Extreme irregularity makes this a "character piece." Spreading or sometimes erect, this Pine is especially prized for its tolerance of seashore conditions. The leaves are rich olive-green on yellow twigs, with large silvery-grey buds and new growth spikes. Attractive cones form, even on young plants.

Hgt. 3 to 4 ft., B&B.....\$12.00 to \$15.00
Hgt. 4 to 5 ft., B&B..... 16.00 to 20.00
Hgt. 5 to 6 ft., B&B..... 25.00 to 30.00
Hgt. 6 to 7 ft., B&B..... 35.00 to 45.00

DOUGLAS FIR (*Pseudotsuga taxifolia*)

This handsome and very hardy, upright tree is native in the Pacific Northwest and Rocky Mountains. The hardy growth is enjoyed under widely varying soil and planting conditions. The needles are short, soft to touch, and varying from rich green to almost blue. We highly recommend this species for border, screen and specimen use.

Hgt. 4 to 5 ft., B&B.....\$15.00
Hgt. 5 to 6 ft., B&B..... 20.00
Hgt. 6 to 7 ft., B&B..... 24.00
Hgt. 7 to 8 ft., B&B..... 35.00
Hgt. 8 to 9 ft., B&B..... 60.00

UMBRELLA PINE (*Sciadopitys verticillata*)

A very interesting and attractive, glossy-leaved evergreen.

In 1-gal. cans.....\$3.75
Hgt. 2 to 2½ ft., B&B.....30.00
Hgt. 2½ to 3 ft., B&B.....35.00
Hgt. 3 to 3½ ft., B&B.....40.00
Hgt. 3½ to 4 ft., B&B.....45.00
Hgt. 4 to 4½ ft., B&B.....50.00
Hgt. 12 to 14 ft., B&B.....200.00
Hgt. 14 to 16 ft., B&B.....250.00

YEW

The Taxus, or Yew, is generally considered the finest of all needled evergreens for foundation or base planting. The needles are relatively short and thick, of deep green color. Habits vary from low, prostrate spreaders through medium and higher spreading types, to globes, chunky and slender, columns, and upright pyramids or cones.

SPREADING ENGLISH (*Taxus baccata* 'Repandens'). Prostrate, with horizontal and slender branches, weeping at the tips. This is the lowest-growing Yew of all. The color is particularly dark green.

Spr. 12 to 15 in., B&B.....\$6.75
Spr. 15 to 18 in., B&B..... 8.50

SPREADING JAPANESE (*Taxus cuspidata*). This higher-growing, spreading form has wide, flaring branches which need shearing to maintain density. Overall width is usually twice the height.

Spr. 15 in., B&B.....\$3.95 each, 10 for \$35.00
Spr. 18 to 24 in., B&B..... 7.95
Spr. 2 to 2½ ft., B&B..... 11.00
Spr. 2½ to 3 ft., B&B.....14.00
Larger sizes up to 12 ft. spread available.

UPRIGHT JAPANESE (*Taxus cuspidata* 'Capitata'). Upright conical or pyramidal habit is particularly valued for accent in base or foundation planting. Red berries in the late summer and fall.

Hgt. 2 to 2½ ft., B&B.....\$13.95
Hgt. 2½ to 3 ft., B&B..... 15.95
Hgt. 3 to 3½ ft., B&B..... 17.95
Hgt. 3½ to 4 ft., B&B..... 19.95
Larger sizes up to 15 ft. on hand.

DENSEFORM SPREADING (*Taxus cuspidata* 'Densiformis'). If we could have but one Spreading Yew, this would be our choice, for it is naturally thick because of its fine branching habit. The plant is full to the ground, spreading to twice its height and with gently irregular rolling top, making an especially handsome specimen.

Spr. 10 to 12 in., B&B.....\$3.95
Spr. 12 to 15 in., B&B..... 5.00
Spr. 15 to 18 in., B&B..... 6.50
Spr. 18 to 24 in., B&B..... 7.50
Spr. 2 to 2½ ft., B&B.....10.00
Spr. 2½ to 3 ft., B&B.....12.00
Spr. 3 to 3½ ft., B&B.....15.00

YEW, continued

DWARF JAPANESE (*Taxus cuspidata* 'Nana'). A much slower-growing, spreading type with considerable irregularity to the top. The slow growth and sculptural quality of its irregular growth make the larger plants a special favorite of many landscape architects. Good soil drainage is important to its success.

Spr. 8 to 12 in., B&B.....\$3.95
Spr. 10 to 12 in., B&B..... 4.95
Spr. 12 to 15 in., B&B..... 5.95
Spr. 15 to 18 in., B&B..... 7.95
Spr. 18 to 24 in., B&B.....12.00
Spr. 2 to 2½ ft., B&B.....\$15.00 to 18.00
Spr. 2½ to 3 ft., B&B..... 20.00 to 25.00
Spr. 3 to 3½ ft., B&B..... 30.00 to 40.00
Spr. 3½ to 4 ft., B&B..... 45.00 to 50.00
Sizes up to 10 ft. available.

DARK SPREADING (*Taxus cuspidata* 'Nigra'). This spreading form, almost as high as wide, is the darkest green of any of the needled plants. The durability and quite slow growth combined with the full bushy habit make this a valuable type for tight, formal hedges.

Spr. 15 to 18 in., B&B.....\$6.95
Spr. 18 to 24 in., B&B..... 9.00

THAYER (*Taxus cuspidata* 'Thayerae'). Wide-spreading and vigorous variety which bears tremendous crops of red berries in the summer and fall.

Spr. 12 to 15 in., B&B.....\$6.95

INTERMEDIA (*Taxus media*). Hybrid between *T. baccata* and *T. cuspidata*.

Hgt. 10 to 12 in., B&B.....\$2.95
Hgt. 12 to 15 in., B&B..... 3.95

Hgt. 2 to 2½ ft., B&B.....10.00
Hgt. 3 to 3½ ft., B&B.....15.00
Larger sizes up to 5 ft. on hand.

BROWN'S (*Taxus media* 'Brownii'). Dense globe form makes this valuable for specimen or rounded hedge use. One of the sturdiest of the yews, particularly recommended for city planting.

Spr. 12 to 15 in., B&B.....\$3.95
Spr. 15 to 18 in., B&B..... 6.25
Spr. 18 to 24 in., B&B..... 9.00
Spr. 2 to 2½ ft., B&B.....12.00
Spr. 2½ to 3 ft., B&B.....\$15.00 to 20.00
Spr. 3 to 3½ ft., B&B..... 18.00 to 25.00

CASCIO GLOBE (*Taxus media* 'Cascio Globe'). Forms dense globe without shearing. Extremely hardy.

Hgt. 4½ to 5 ft., B&B.....\$50.00
Hgt. 5 to 5½ ft., B&B..... 60.00

HATFIELD (*Taxus media* 'Hatfieldii'). Upright, chunky column of dense habit. A solid appearance with gentle irregularity of top and sides. Particularly valuable as doorway specimen and upright, though not tall, hedge form. Berrying and non-fruiting strains are included.

Hgt. 8 to 10 in., in 1-gal. cans.....\$1.95
Hgt. 10 to 12 in., B&B..... 2.95
Hgt. 12 to 15 in., B&B..... 3.95
Hgt. 15 to 18 in., B&B..... 5.95

Hgt. 2½ to 3 ft., B&B.....12.50
Hgt. 3 to 3½ ft., B&B.....\$15.00 to 20.00
Hgt. 3½ to 4 ft., B&B..... 22.50 to 25.00

ARBOR-VITAE

Distinguished by their scale-like needles.

GLOBE (*Thuja occidentalis* 'Globosa'). Dense rounded ball, seldom seen over 3 to 4 feet in height or diameter. The color is sea-green in summer, turning slightly bronzed in winter.

Spr. 18 to 24 in., B&B.....\$4.95

DARK AMERICAN (*Thuja occidentalis* 'Nigra'). A tall-growing, upright, narrow pyramid, preferred for its density and deep green color. Where space is limited and high evergreen screen needed, there is no better choice than this.

Hgt. 2 to 2½ in., B&B.....\$3.50
Hgt. 2½ to 3 ft., B&B..... 4.50
Hgt. 3 to 4 ft., B&B..... 5.95
Hgt. 4 to 5 ft., B&B..... 8.95
Hgt. 5 to 6 ft., B&B.....10.95
Hgt. 6 to 8 ft., B&B.....\$12.00 to 25.00
Hgt. 8 to 10 ft., B&B.....45.00

PYRAMIDAL (*Thuja occidentalis* 'Pyramidalis').

Hgt. 6 to 8 ft., B&B.....\$15.00

GOLDEN BIOTA (*Thuja orientalis* 'Sieboldii'). The striking golden-yellow color of this dwarf evergreen provides valuable accents when used with other needled evergreens. During winter months the bright yellow turns to golden-bronze. Growth is quite slow and habit slightly higher than wide.

Hgt. 15 to 18 in., B&B.....\$3.75

HEMLOCKS

Beautiful feathery form, short needles and ease of care make these favorites for specimen locations.

CANADIAN (*Tsuga canadensis*). Growth easily limited by shearing and good density with natural form makes this the best needled evergreen for informal screens and large hedges. No recommendation can do adequate justice to this fine species. Will not do well in windy or wet location.

Hgt. 8 to 10 in., B&B.....\$1.25
Hgt. 18 to 24 in., B&B.....Each \$5.00, 10 for 45.00
Hgt. 2 to 3 ft., B&B..... 7.95
Hgt. 3 to 4 ft., B&B.....11.00
Hgt. 4 to 5 ft., B&B.....\$15.00 to 20.00

Hgt. 6 to 7 ft., B&B..... 27.50 to 32.50
Hgt. 7 to 8 ft., B&B..... 35.00 to 45.00
Sizes up to 25 ft. on hand.

SARGENT'S WEeping (*Tsuga canadensis* 'Sargentii' Pendula). Magnificent rounded or weeping habit of dwarf specimen form, bearing the same lovely needles as the Canadian Hemlock. Outstanding specimen for rock garden or the top of a wall or bank.

Spr. 15 to 18 in., B&B.....\$15.00
Spr. 2 to 2½ ft., B&B..... 20.00
Hgt. 6 ft., B&B..... 70.00
Hgt. 8 ft., B&B..... 90.00
Hgt. 10 ft., B&B.....100.00

CAROLINA (*Tsuga caroliniana*). Though a native of the southern mountains, this species is completely hardy throughout this region. The habit is somewhat more upright and narrow than that of the Canadian, with a slightly larger needle bearing a more prominent white stripe on the lower surface. Branches are interestingly curved, with delightful grace.

Hgt. 2½ to 3 ft., B&B.....\$8.00
Hgt. 3 to 4 ft., B&B.....15.00
Hgt. 4 to 5 ft., B&B.....\$20.00 to 25.00
Hgt. 5 to 6 ft., B&B..... 25.00 to 30.00
Hgt. 6 to 7 ft., B&B..... 35.00 to 40.00
Sizes up to 15 ft. on hand.

AZALEA

MAHONIA

AZALEAS

For massive color combined with evergreen planting nothing matches the Azaleas. Small leaves are completely hidden by the fully opened flowers. Though dependably hardy here, many varieties cannot survive the extreme winters farther north.

All-time favorite is Hinodegiri with bright red to cerise flowers and with shiny foliage turning maroon for winter. The similar Hino Crimson is distinguished by clearer red flowers. The softer colors as with the pink Hinomayo are growing in favor. Indica Alba, a long-time favorite white, still rates high and is especially handsome as a larger specimen. The Kaempferi Hybrids or Torch Azaleas combine large flowers on vigorous plants with more dependable hardiness. Among these the clear rose-pink Fedora is one of the best, combining handsomely with the extremely hardy Korean Azalea which bears large, single, lavender flowers. Be sure to visit the nursery often during spring bloom to see these and the many other hardy varieties.

For colder climates and difficult locations the taller growing deciduous or non-evergreen Azaleas are safe. Colors vary from the Early Azalea whose lavender-pink combines attractively with Spring Glory Forsythia, through the whites and pinks to the startling yellow and oranges of the Chinese and Flame Azaleas.

MAHONIA

Holly-like leaves, yellow flowers, and blue grape-like berries combine in this bushy plant, sometimes called Oregon Grape Holly. Thrives in reasonably clayey soils which are not too acid. Winter foliage turns dark maroon and is best if partially protected from winter sun and wind.

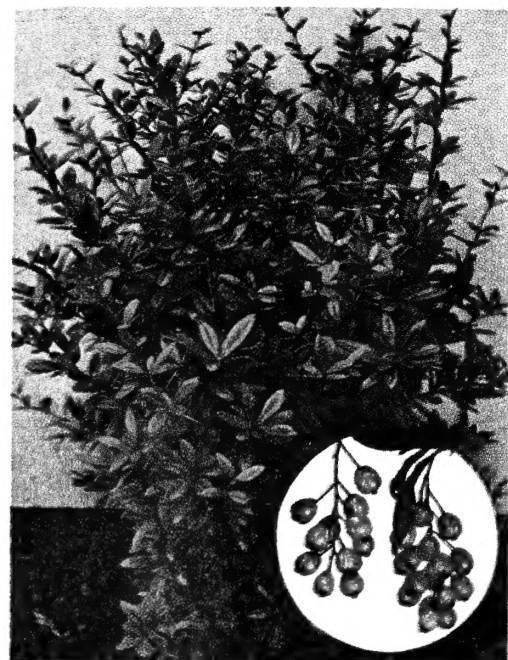

COTONEASTERS

Though some are not strictly evergreen, the leaves of most Cotoneasters remain into early winter, while coloring beautifully. The Cranberry and Rock Cotoneasters are prostrate growing and bear respectively large and small bright red berries. Larger growing forms also fruit attractively and one, Henry's is truly evergreen.

COTONEASTER

B R O A D L E A F E V

WINTERGREEN BARBERRY

BARBERRIES

Broadleaved evergreens for basic home planting have increased in use during recent years more than has any other group of plants. Wintergreen and Warty Barberries, valuable members of this group, are not yet too well known. The former is taller and quite vigorous, while the latter is low spreading and slow in growth. Both have attractive small yellow flowers in spring followed by small clusters of blue berries. Leaves of the dwarf are smaller, but both are rich green during summer with occasional red and orange leaves showing in the fall. In the winter sun the leaves take on a maroon color, brightening to rich green with the arrival of spring. Armed with sharp spines, both species repel dogs and avoid damage on even well-trafficked corners. Careful trimming of the Wintergreen Barberry will prevent the normally vigorous growth from exceeding the limit of most foundation plantings.

ANDROMEDAS

For every season there is a special attraction to the Japanese Andromeda. In early spring the small bell-like white flowers open in the drooping clusters at the tip of each shoot. The similarity in flower has earned it the name "Lily-of-the-Valley Shrub." Soon after flowering, new shoots begin growth with subtly blending colors of rose-pink, copper and chartreuse. In the summer, clusters of seed pods are evident if you have not trimmed off last spring's flowers as recommended for maximum growth and flowering. Then too new buds are formed in gracefully nodding terminal clusters and remain in evidence throughout the winter. The mature leaves are glossy green, appearing almost to have been waxed.

The Mountain Andromeda, a low spreading form, is less common and somewhat more particular in requiring a well-drained, peaty soil. Leaves are not glossy and flowers are in upright clusters.

HOLLIES

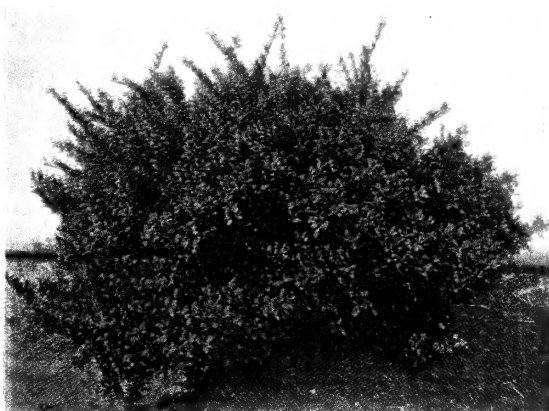

Mention Holly to most anyone and he visualizes the red-berried forms associated with Christmas. Of these only the American Holly is dependably hardy, though others are on trial in protected situations. Male and female flowers occur on separate Holly plants. To enjoy the berries it is necessary to have both present so that pollen from the male plants may fertilize the female flowers, thus insuring berry production. One male may provide pollen for many female plants within the average size home planting.

Much more common and valuable to basic home planting are the Japanese Hollies, some of which bear black berries. The form is infinitely varied from very dwarf spreaders through to tall specimens. Among the most valued is the Boxleaf Holly, a spreading form with waxy convex leaves. Used in low hedges and also as mounded specimens, it is completely dependable. One of the hardiest and well tested by last winter is the Littleleaf Japanese Holly. The natural habit is upright but broad and chunky. The leaf is deep green, flat and pointed at the tip. It develops naturally as a dense informal specimen or may be sheared to strictly formal, broad pyramids. All the Hollies respond well to pruning and may be maintained at any desired size through regular annual trimming.

For shore use the Inkberry is especially valuable, developing as a softly rounded bushy plant, though it may also be sheared formally.

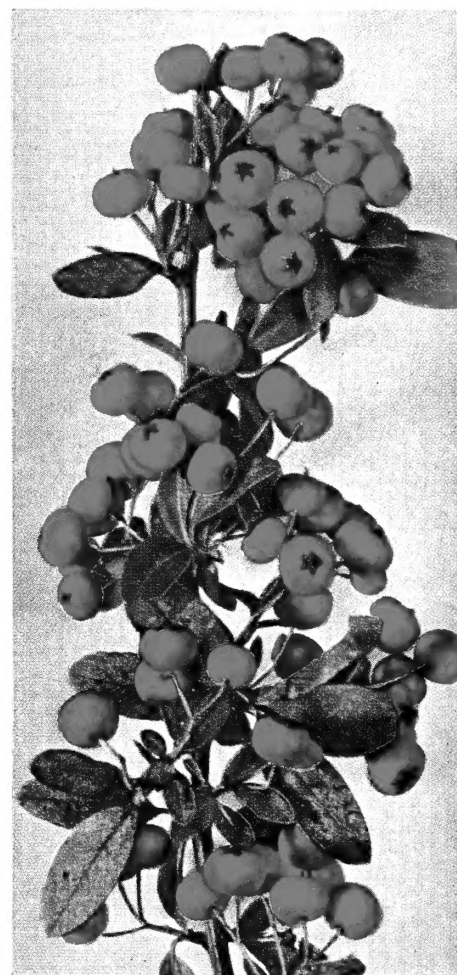

AMERICAN HOLLY

BOXLEAF HOLLY

FIRETHORN

The advent of container growing has made possible consistent good results with the normally coarse-rooted Firethorn. The vigorous shoots of this informal shrub are almost vine-like and perhaps easier to train in espalier form than any other species. If you wish, pretrained specimens are available at the nursery complete with trellis. Specimens trained flat on a warm masonry wall grow and fruit especially well. In May clusters of white flowers grace the spurs from the upright shoots. By late summer these flowers have become bright orange berries which retain their bright color until winter, unless devoured by the birds.

FIRETHORN

ERGREENS

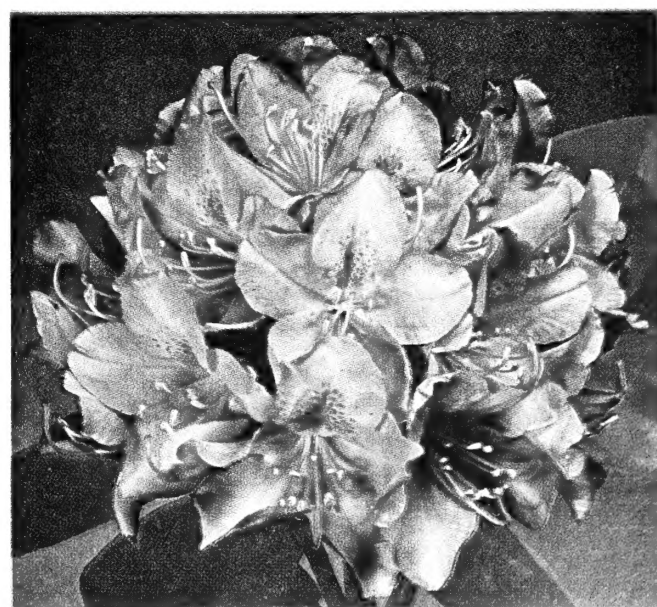

ANDROMEDA

RHODODENDRON

The bright-colored Hybrid Rhododendrons provide unmatched richness of color and foliage. Leaves are large and deep green on generally compact plants equal in height and spread. Flowers are large, in heavy rounded clusters at the tip of each branch.

Colors are varied from the pure white Catawbiense Album through the pinks and lavender to the deep red of Charles Dickens or America and the handsome Lee's Dark Purple. The crimson Caractacus and Dresselhuys are long-time favorites. In lighter colors the pink Mrs. C. S. Sargent and English Roseum are especially good. For a novel effect choose Amphion, with flowers of deep rose-pink edges and white centers.

The native Rosebay Rhododendron is only suited to partial or full shade and should be grown for foliage effect particularly. The flowers are white to light pink and smaller than the hybrids.

HYBRID RHODODENDRON

The Peter

CASCIO

NURSERY

2600 ALBANY AVE., WEST HARTFORD 17, CONN. • ADams 6-1609

The brief descriptive listing here and the pictures are not nearly adequate to present this widely varying plant group. Your spring visit to the nursery will, in a moment, show you much more of the beauty available for your own home and permanent enjoyment.

B&B indicates Balled and Burlapped stock.

GLOSSY ABELIA (*Abelia grandiflora*)

Clusters of tiny trumpet-like flowers of dainty pink appear in early July and continue emerging until heavy frost. The stems and leaves are tender, often winter-killing to nearly ground level which naturally insures a dense, compact and modest size shrub. We especially like this near a terrace or outdoor living area, for in summer months it provides a continuous display.

Hgt. 15 to 18 in., B&B.....\$1.95
Hgt. 18 to 24 in., B&B..... 3.00

BEARBERRY (*Arctostaphylos Uva-ursi*)

Prostrate and trailing ground cover. Tiny flowers white or pinkish, urn-shaped.
In 3-in. pots.....\$1.00

AZALEA

The most colorful of all plants for this region. Evergreen and deciduous types are both listed here in separate groups, with varieties of each arranged alphabetically.

CARMEN (*Azalea Kaempferi* hybrid). Upright, tall, early midseason. Single 2½-inch flowers, red with red-throat and brown blotch.

Hgt. 15 to 18 in., B&B.....\$4.95

GERALDINE VUYK (*Azalea Kaempferi* 'Geraldine Vuyk'). Flower single, 2-inch, red with deeper blotch. In 1-gal. cans.....\$2.95

FEDORA (*Azalea Kaempferi* 'Fedora'). A vigorous-growing *Kaempferi* hybrid, hardier than most and slightly more upright than some. Leaves are partially evergreen, turning reddish for winter months. Flowers are large and clear rose-pink.

Hgt. or spr. 12 to 15 in., B&B.....\$3.95

HELENA VUYK (*Azalea* 'Helena Vuyk'). One of the very hardy *Vuyk* hybrids. Growth is vigorous, with height and spread about equal. Flowers are very large, soft rose-pink in color with darker spots.

Hgt. or spr. 15 to 18 in., B&B.....\$5.75

Hgt. or spr. 18 to 24 in., B&B..... 7.50

Hgt. or spr. 2 to 2½ ft., B&B.....10.00

HERBERT (Gable Hybrid, 'Herbert'). Spreading low to medium height; early midseason. Dark reddish-violet with darker blotch.

Hgt. 15 to 18 in., B&B.....\$4.95

HINO CRIMSON (*Azalea* 'Hino Crimson'). Red.

Hgt. 10 to 12 in., B&B.....\$3.95

HINODEGIRI (*Azalea* 'Hinodegiri'). The favorite Kurume hybrid so admired for evergreen leaves and brilliant rose-red flowers. Plants are low and broad, with bronzed winter leaves which are completely hidden by the masses of flowers in late April or early May.

In 1-gal. cans.....\$2.50

Spr. 10 to 12 in., B&B..... 3.95

Spr. 12 to 15 in., B&B..... 4.95

Spr. 15 to 18 in., B&B..... 5.95

HINOMAYO (*Azalea* 'Hinomayo'). Another thoroughly proven Kurume hybrid. Leaves are smaller and lighter green than 'Hinodegiri' but shape is exactly the same. Flowers are borne in same profusion but are clear pink.

Spr. 12 to 15 in., B&B.....\$4.95

INDICA ALBA (*Azalea mucronatum* 'Indica Alba' or 'Ledifolia Alba'). This truly treasured landscape type is vigorous and spreads wider than high. Leaves are covered with small hairs, usually sparse during winter months. Flowers are very large and purest white.

In 1-gal. cans.....\$2.95

Spr. 12 to 15 in., B&B..... 4.50

Spr. 15 to 18 in., B&B..... 5.75

Spr. 18 to 24 in., B&B..... 7.50

AZALEA, continued

TORCH (*Azalea Kaempferi* 'Torch'). Clear rose and salmon-pink variants command interest in this species. Taller growing and much hardier than most evergreen Azaleas. Sparse leaves of winter are rich maroon.

Hgt. or spr. 12 to 15 in., B&B.....\$3.95

Hgt. or spr. 15 to 18 in., B&B..... 5.75

Hgt. or spr. 18 to 24 in., B&B..... 7.50

Hgt. or spr. 2 to 2½ ft., B&B..... 9.00

Hgt. or spr. 2½ to 3 ft., B&B.....12.00

KOREAN (*Azalea yedoense poukhanense*). An extremely hardy, persistent-leaved but not truly evergreen variety. Flowers are large, to 2 inches across, soft lavender with reddish spots. Exquisite combination with the rose-pink 'Fedora'.

Spr. 15 to 18 in., B&B.....\$5.95

Spr. 18 to 24 in., B&B..... 9.95

WILHELMINA VUYK (*Azalea* 'Wilhelmina Vuyk'). *Kaempferi* and *Mollis* hybrids. An evergreen white recommended for hardiness and large flowers. A little more erect in growth than 'Indica Alba'.

In 1-gal. cans.....\$2.95

Hgt. or spr. 12 to 15 in., B&B..... 4.95

YODOGAWA (*Azalea yedoense*). Double, lavender-pink flowers in profusion before foliage in April.

In 1-gal. cans.....\$3.95

Hgt. 12 to 15 in., B&B..... 4.35

Deciduous Types

SWEET (*Azalea arborescens*). A delightful woodland species bearing fragrant blush-pink to white flowers after leaves emerge. Combine with native shrubs, Laurel and Rhododendron for natural effect.

Hgt. 15 to 18 in., B&B.....\$4.75

Hgt. 18 to 24 in., B&B..... 5.75

FLAME (*Azalea calendulacea*). Brilliant yellow to deep red-orange, spidery flowers in clusters truly look like flames. Upright and tall but slow growing.

Hgt. 15 to 18 in., B&B.....\$4.75

Hgt. 18 to 24 in., B&B..... 5.75

Hgt. 2 to 3 ft., B&B..... 7.50

Hgt. 3 to 4 ft., B&B.....\$10.00 to 12.00

Hgt. 4 to 5 ft., B&B..... 15.00 to 20.00

CHINESE (*Azalea mollis*). Large flowers of intense red to yellow-orange are clustered at the tops of the coarsely branched stems. Contrary to other Azaleas, this one grows better in a less acid soil.

Hgt. 12 to 15 in., B&B.....\$3.45

Hgt. 15 to 18 in., B&B..... 3.95

Hgt. 18 to 24 in., B&B..... 4.95

Hgt. 2 to 2½ ft., B&B.....\$7.50 to 9.00

DAHURIAN (*Azalea mucronulata*). To 5 to 6 feet. Frilly rosy-purple; small, fragrant blooms in mid April.

Hgt. 12 to 15 in., B&B.....\$4.00

Hgt. 2 to 2½ ft., B&B..... 7.50

EARLY (*Azalea mucronulata*).

Hgt. 12 to 15 in., B&B.....\$3.95

Hgt. 15 to 18 in., B&B..... 5.95

Hgt. 18 to 24 in., B&B..... 6.95

PINXTERBLOOM (*Azalea nudiflora*). A native of our local woods. The light pink flowers precede Mountain Laurel and combine especially well in natural planting.

Hgt. 18 to 24 in., B&B.....\$5.75

Hgt. 2 to 3 ft., B&B..... 7.50

ROYAL (*Azalea Schlippenbachii*). Very large, rose-pink flowers.

Hgt. 15 to 18 in., B&B.....\$6.95

SHUBERT (*Azalea* 'Shubert'). Late, pink.

Hgt. 18 in., B&B.....\$4.95

PINKSHELL (*Azalea Vaseyi*). Delicate shell-pink flowers open before the leaves emerge in late April. Particularly graceful flower form and loose, upright habit give *Vaseyi* a special charm.

Hgt. 15 to 18 in., B&B.....\$3.95

Hgt. 18 to 24 in., B&B..... 9.95

Hgt. 2 to 2½ ft., B&B.....15.00

B R O A D

Year-round evergreen

SWAMP AZALEA (*Azalea viscosa*). An extremely hardy native of our wet woodland areas. The flowers are white and very fragrant, opening in late June. Leaves have glossy surfaces, turning bright red in autumn.

Hgt. 2 to 3 ft., B&B.....\$7.50

WINTERGREEN BARBERRY (*Berberis Julianae*)

Shiny dark evergreen foliage on an erect, bushy shrub bearing long sharp thorns. Small yellow spring flowers are followed by blue-grey berries.

Hgt. 1 to 1½ ft., B&B.....\$4.00

Hgt. 1½ to 2 ft., B&B..... 6.00

Hgt. 2 to 2½ ft., B&B..... 8.00

Hgt. 2½ to 3 ft., B&B.....10.00

Sizes up to 5 ft. on hand.

WARTY BARBERRY (*Berberis verruculosa*)

Grows to 3 feet. Three-parted spines; glossy dark green leaves. Golden-yellow flowers followed by black fruit.

Hgt. 6 to 8 in., in 1-gal. cans.....\$2.95

COMMON BOXWOOD (*Buxus sempervirens*)

Compact rounded mass of fine evergreen leaves, prized for specimen planting.

Hgt. 15 to 18 in., B&B.....\$5.95

KOREAN BOXWOOD (*Buxus microphylla* 'Koreana')

Grows to 2 feet or often prostrate.

Hgt. 12 to 15 in., B&B.....\$2.25

DWARF ENGLISH BOXWOOD (*Buxus sempervirens* 'Suffruticosa')

Dwarf form with small leaves. Ideal for edgings or treasured as ancient specimens. Dense and compact growing.

Hgt. 6 to 8 in., B&B.....\$1.25

Sizes up to 3 ft. available.

WELLER BOXWOOD (*Buxus Welleri*)

In 1-gal. cans.....\$2.50

SCOTCH HEATHER (*Calluna vulgaris*)

Blooms profusely in late summer.

In 1-gal. cans.....\$2.00

WHITE HEATHER (*Calluna vulgaris alba*)

In 1-gal. cans.....\$2.00

SCOTCH BROOM (*Cytisus praecox*)

Green-stemmed bushy shrub to 8 feet. Flowers yellow, solitary or in pairs, pea-like.

Hgt. 12 to 15 in., B&B.....\$3.75

COTONEASTER

Though most are not truly evergreen, these colorfully berried shrubs have long-lasting leaves and are usually treated with the broadleaf evergreens.

CRANBERRY (*Cotoneaster apiculata*). Low growing and vigorous, forming low mounds. Small pink flowers in June are followed by bright red, cranberry-like fruit in the fall. Leaves turn brilliant red before finally dropping in late fall.

Spr. 12 to 15 in., Container grown.....\$3.75

SPREADING (*Cotoneaster divaricata*). Broad shrub of neat habit with small pink flowers followed by shining red berries. Leaves are bright red in autumn. Tolerant of hot, dry and seashore locations.

In 1-gal. cans.....\$1.95

HENRY'S (*Cotoneaster Henryana*). Rough-textured but shiny, willow-shaped leaves are truly evergreen. Graceful branches are limber and arching, thus well suited to espalier treatment. White flowers in clusters become bright red berries in autumn, remaining throughout the winter.

Hgt. 15 to 18 in., Container grown.....\$4.95

ROCK (*Cotoneaster horizontalis*). Fine, shiny leaves on spike-like, flat horizontal branches. Excellent over walls and rock outcroppings.

Spr. 12 to 15 in., container grown.....\$3.75

ROSE DAPHNE (*Daphne Cneorum*)

Grows 15 to 18 inches tall. Narrow grey-green foliage, with fragrant pink flowers in spring and late summer. Plant in light, well-drained soil.

Hgt. 6 to 9 in.....\$2.50

Hgt. 12 in..... 4.25

Hgt. 18 in..... 4.95

LEAF EVERGREENS

foliage beauty and spectacular seasonal masses of brilliant flowers or berries.

MEZEREUM DAPHNE (*Daphne Mezereum*)
Pink.

Hgt. 15 to 18 in.\$4.95
MEZEREUM ALBA DAPHNE (*Daphne Mezereum* 'Alba')
White.
Hgt. 15 to 18 in.\$6.25

EUONYMUS

Extremely sturdy, broadleaf evergreens for those difficult exposed locations. Tolerate extreme wind and salt spray.

EMERALD CHARM (*Euonymus Fortunei* 'Emerald Charm', Plant Patent No. 1079). New narrow columnar form especially recommended.
Hgt. 12 to 15 in., B&B.\$4.75

EMERALD CUSHION (*Euonymus Fortunei* 'Emerald Cushion', Plant Patent No. 1112). A dense, cushion-like low mound, fine for low edges.
Spr. 12 to 15 in., B&B.\$4.75

EMERALD LEADER (*Euonymus Fortunei* 'Emerald Leader', Plant Patent No. 881). Dense rounded upright form, ideal for hedge or specimen use. Differs from others in producing abundant bittersweet-like fruit.
Hgt. 12 to 15 in., B&B.\$4.75

EMERALD PRIDE (*Euonymus Fortunei* 'Emerald Pride', Plant Patent No. 1073). Larger-leaved, compact form for higher hedge or formal accent. Readily pruned into globe or pyramidal shape.
Hgt. 12 to 15 in., B&B.\$4.75

PATENS (*Euonymus kiautschovica*). Formerly called *Euonymus patens*, this hardy species has long been favored for difficult city conditions. Plants are vigorous, bushy and broadly upright, with many stems. Leaves are persistent though not fully evergreen.

Hgt. 18 to 24 in., B&B.\$6.00
Hgt. 3 to 4 ft., B&B.15.00
Hgt. 5 to 6 ft., B&B.20.00
Hgt. 6 to 7 ft., B&B.25.00

HOLLY

JAPANESE (*Ilex crenata*). Variety of form, from narrow-upright to broad-spreading wider than high specimens, makes these ideal for particular landscape problems. Small leaves, black berries and usually dense habit—all add value.

Hgt. 18 to 24 in., B&B.\$6.50
Hgt. 2 to 2½ ft., B&B.\$7.50 to 9.00
Hgt. 2½ to 3 ft., B&B.12.00 to 15.00
Hgt. 3 to 3½ ft., B&B.18.00
Hgt. 3½ to 4 ft., B&B.20.00
Hgt. 4 to 4½ ft., B&B.22.50 to 25.00
Hgt. 4½ to 5 ft., B&B.27.50 to 35.00

DWARF JAPANESE (*Ilex crenata* 'Compacta'). Very compact, slow growing, spreading.
Hgt. 12 to 15 in., B&B.\$6.95
Hgt. 15 to 18 in., B&B.7.95

BOXLEAF (*Ilex crenata* 'Convexa'). Handsome, compact spreading form for low hedge or specimen planting. Leaves are glossy deep green and curved. Come and see our fine specimens.

Hgt. 8 to 15 in., in 2-gal. cans.\$3.95
Hgt. 15 to 18 in., B&B.6.50
Hgt. 18 to 24 in., B&B.8.95
Hgt. 2 to 2½ ft., B&B.11.95
Hgt. 4 to 4½ ft., B&B.50.00

GREEN ISLAND (*Ilex crenata* 'Green Island', Plant Patent No. 817). A hardier spreading form, more vigorous when established than Boxleaf. Leaves differ in their dull surface, flat rather than curved.

Spr. 10 to 12 in., B&B.\$6.00
Spr. 15 to 18 in., B&B.8.50
Spr. 18 to 24 in., B&B.9.00

ROUNDLEAF (*Ilex crenata* 'Latifolia'). Larger leaves and broad rounded form are characteristic of this more rapid-growing Japanese Holly.

Hgt. 18 to 24 in., B&B.\$6.00
Hgt. 2 to 2½ ft., B&B.8.50
Hgt. 2½ to 3 ft., B&B.12.00
Hgt. 3 to 3½ ft., B&B.16.00
Hgt. 3½ to 4 ft., B&B.20.00
Hgt. 4 to 4½ ft., B&B.25.00

HOLLY, continued

LITTLELEAF (*Ilex crenata* 'Helleri'). Smaller leaves and broad upright habit distinguish this hardier Japanese Holly.

Hgt. 10 to 12 in., B&B.\$7.95
Hgt. 12 to 15 in., B&B.9.95

SUPREME (*Ilex* 'Supreme')
In 2-gal. cans.\$3.95

INKBERRY (*Ilex glabra*). Valuable for shore planting. Soft, billowy and rounded form gives a more natural effect than stiffer Japanese Hollies.

In 1-gal. cans.\$3.95
Hgt. 18 to 24 in., B&B.6.00
Hgt. 2 to 2½ ft., B&B.9.00
Hgt. 2½ to 3 ft., B&B.12.00
Hgt. 3 to 3½ ft., B&B.15.00

DWARF INKBERRY (*Ilex glabra* 'Compacta').
Hgt. 18 to 24 in., B&B.\$7.50

AMERICAN HOLLY (*Ilex opaca*). Sharp spiny leaves mark these large-growing evergreen shrubs or trees. Red berries grace the female plants only if males are nearby to supply pollen. Plant at least one male near any number of female berrying plants.

Hgt. 15 to 18 in., male, in 2-gal. cans.\$6.95
Hgt. 2½ to 3 ft., female, B&B.15.00
Hgt. 3 to 3½ ft., female, B&B.18.00
Hgt. 3½ to 4 ft., B&B.\$15.00 to 20.00
Hgt. 4 to 5 ft., B&B.25.00 to 60.00
Sizes up to 12 ft. on hand.

MOUNTAIN LAUREL (*Kalmia latifolia*)

This handsome native, though tolerant of cold, suffers from drying winter winds and sun. For greatest enjoyment use it with some protection such as Hemlock or Pine to the windward and the light shade of Dogwood overhead. Flowers are deep pink in bud, opening in early June to blush-white.

Hgt. 15 to 18 in., B&B.\$3.95
Hgt. 18 to 24 in., B&B.4.95
Hgt. 2 to 3 ft., B&B.5.95
Hgt. 3 to 4 ft., B&B.\$9.00 to 12.00

DROOPING LEUCOTHOE (*Leucothoe Catesbaei*)

Delightful arching branches bear small Lily-of-the-Valley-like flower clusters in very late spring. Large leaves, green in the deep shade, are intense maroon in sun. Heavy cutting of the branches for use with cut-flower arrangements makes the plant even more dense.

Spr. 12 to 15 in., B&B.\$3.75
Spr. 15 to 18 in., B&B.4.50
Spr. 18 to 24 in., B&B.6.00

MOUNTAIN ANDROMEDA (*Pieris floribunda*)

Clusters of waxy white flowers in spring. Flower buds prominent all winter. Does well in ordinary soil.

Hgt. 9 to 12 in., B&B.\$4.50
Hgt. 12 to 15 in., B&B.6.95
Hgt. 15 to 18 in., B&B.7.95

JAPANESE ANDROMEDA (*Pieris japonica*)

Upright growing, with drooping clusters of Lily-of-the-Valley-like flowers in very early spring. Leaves are shiny light green, with new growth showing red, pink, copper and chartreuse tones.

In 12-in. cans.\$2.50
Hgt. 15 to 18 in., B&B.5.95
Hgt. 18 to 24 in., B&B.7.95
Hgt. 2 to 2½ ft., B&B.10.95
Hgt. 2½ to 3 ft., B&B.13.95
Hgt. 3 to 3½ ft., B&B.15.95

FIRETHORN (*Pyracantha coccinea* 'Lalandii')

Rapid-growing, stiffly and irregularly upright shrub often trained on chimneys or walls. Flat clusters of white flowers are followed in late summer by orange berries.

Hgt. 12 to 15 in., container grown.\$3.50
Hgt. 2 to 2½ ft., container grown.6.00
Hgt. 2½ to 3 ft., container grown.7.50

KAZAN FIRETHORN (*Pyracantha* 'Kazan')

Fast growing; orange berries.
In 1-gal. cans.\$2.50
Hgt. 2 to 2½ ft., B&B.6.95

PAUCIFLORA FIRETHORN (*Pyracantha pauciflora*)

Low growing. Good for dense hedge.
Hgt. 15 to 18 in., B&B.\$5.95

RHODODENDRON

Generally large evergreen leaves and clusters of extremely colorful flowers distinguish this valuable group.

CAROLINA (*Rhododendron carolinianum*). Smaller leaved than most, this southern native is hardy and dependable in this region. Growth is not dense and with smaller leaf size gives a much less massive effect. Flowers appearing in April are earlier than most and of delicate soft pink to lavender-pink.

Hgt. 12 to 15 in., B&B.\$4.95
Hgt. 15 to 18 in., B&B.5.95
Hgt. 18 to 24 in., B&B.7.50
Hgt. 2 to 2½ ft., B&B.\$9.00 to 11.00

WHITE CAROLINA (*Rhododendron carolinianum* 'Album'). Grows to 6 feet. Leaves to 3 inches long. Flowers white narrow bell-shaped.

Hgt. 12 in., B&B.\$4.95

CATAWBA (*Rhododendron catawbiense*). Grows 8 to 10 feet tall. Rosy-purple flowers in May and early June; large buds in fall. Medium-sized evergreen leaves.

Hgt. 12 to 18 in., B&B.\$5.95
Hgt. 18 to 24 in., B&B.7.50
Hgt. 2 to 2½ ft., B&B.\$9.00 to 11.00
Hgt. 2½ to 3 ft., B&B.13.00 to 16.00
Hgt. 3 to 4 ft., B&B.16.00 to 19.00

FORTUNE (*Rhododendron Fortunei*). To 12 feet. Leaves to 8 inches long. Flowers lilac or pink, broad bell-shaped, to 3 inches across.

Hgt. 12 in., B&B.\$4.95

ROSEBAY (*Rhododendron maximum*). Largest-leaved, coarse-growing species recommended only for foliage and when planted in nearly full shade.

18 to 24 in., B&B.\$4.95
2 to 3 ft., B&B.5.95
3 to 4 ft., B&B.\$12.00 to 15.00
4 to 5 ft., B&B.18.00 to 25.00
Sizes up to 8 ft. available.

HYBRID RHODODENDRONS (*Rhododendron catawbiense* HYBRIDS)

Fascinating color range and naturally more compact growth distinguish these vastly superior hybrids. Tolerate, and flower best, in nearly full sun with soil that is rich in Peat-Humus. Outstanding varieties available include the following:

AMERICA. Bright clear red, large flowers at mid-season.

Hgt. 12 to 15 in., B&B.\$9.50

BOULE DE NEIGE. Dwarf white.

In 1-gal. cans.\$4.50

CATAWBIENSE ALBUM. Hardest white. Delicate lilac-pink in bud, opening to pure white. Late.

In 1-gal. cans.\$3.95

CATAWBIENSE GRANDIFLORUM. Extremely hardy, with good foliage. Flowers are lavender-pink.

Hgt. 18 to 24 in., B&B.\$9.95
Hgt. 2 to 2½ ft., B&B.12.50
Hgt. 2½ to 3 ft., B&B.14.95
Hgt. 3 to 3½ ft., B&B.19.95

CUNNINGHAMII. White.

Hgt. 15 to 18 in., B&B.\$8.95

DR. H. C. DRESSELHUYS. Crimson-red, vigorous-growing variety.

Hgt. 12 to 15 in., B&B.\$7.50
Hgt. 15 to 18 in., B&B.8.95
Hgt. 2 to 2½ ft., B&B.15.00
Hgt. 2½ to 3 ft., B&B.18.95
Hgt. 3 to 3½ ft., B&B.24.95

EDWARD S. RAND. Early light red with somewhat dwarf habit.

Hgt. 15 to 18 in., B&B.\$9.50

IGNATIUS SARGENT. Light rosy-crimson flowers open later than many.

Hgt. 18 to 24 in., B&B.\$11.95

ROSEUM ELEGANS. Lilac-pink flowers and strong, neat growth distinguish this favorite.

In 1-gal. cans.\$3.95
Hgt. 18 to 24 in., B&B.11.95
Hgt. 2 to 2½ ft., B&B.14.95
Hgt. 2½ to 3 ft., B&B.17.95
Hgt. 3 to 3½ ft., B&B.24.95

SPRING

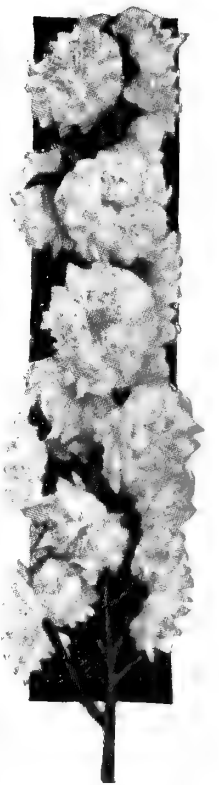

Everyone eagerly awaits the coming of spring signalled with a burst of color from our flowering shrubs. First of all is the Spring Witch Hazel followed soon by the Cornelian Cherry, both bearing fuzzy, soft yellow flowers. Forsythia blares out the march of Spring and others follow. Among the leaders are the Quince and Almond pictured here.

LYNWOOD GOLD FORSYTHIA

**FLOWERING
QUINCE**

**FLOWERING
ALMOND**

FLOWERS

ENKIANTHUS

Throughout the spring and into June the parade continues. On pages 14 and 15 we have listed some of the many species which make it possible to plant a shrub border of ever-changing flowers throughout this period. The four illustrated here and the Lilacs on our cover can only suggest the combinations possible. Our nurserymen will be happy to help with your selection.

SLENDER DEUTZIA

FRAGRANT VIBURNUM

NEWPORT RED WEIGELA

ROSE OF SHARON

The erect-growing Rose of Sharon is represented by a new variety, Blue Bird, with more and larger flowers in midsummer.

SUMMER

The parade of flowers halts briefly in early summer but soon moves on with golden-yellow Hypericum, Cinquefoil and the wine-colored Butterfly Bushes.

BUTTERFLY BUSH

PEE GEE HYDRANGEA

The old standby P. G. Hydrangea holds its immense cone-shaped flower clusters until late fall.

FALL

During late summer and early fall seed pods and colorful berries become strikingly attractive as they mature. Pictured to the right are the white Snowberry, red Cranberry Bush or Viburnum, purple Beautyberry, orange Cotoneaster (listed with the Broadleaf Evergreens on page 11) and in lower right corner, the red Chokeberry.

Bright berries add color to the garden two ways—by their own color and by the colorful birds which are attracted to them for fall and winter feeding.

With cooler nights, early fall leaf color begins and is perhaps most noticed in the Burning Bush pictured below. As cooler weather continues, Spice Bush and Witch Hazel leaves turn lovely soft yellow, Viburnums turn red, Enkianthus becomes bright orange and red.

When most leaves have fallen, the Fall Witch Hazel opens its bright yellow flowers like bits of yarn along the stems. Now too, the wonderful twig structure of the Corkbark is visible.

BURNING BUSH

COLORFUL FALL BERRIES. See text above

B&B indicates Balled and Burlapped stock.
BR indicates Bare-Root stock.

KOREAN ABELIA-LEAF (*Abeliophyllum distichum*)
Dense clusters of fragrant, tiny white flowers from deep purple buds. Grows 3 feet tall.
Hgt. 2 to 3 ft., B&B.....\$3.75

FIVE-LEAF ARALIA (*Acanthopanax Sieboldianus*)
Five-parted leaf on spiny stems growing thickly even in poor soil and city smoke.
Hgt. 2 to 3 ft., B&B.....\$1.95
Hgt. 3 to 4 ft., B&B..... 2.95
Hgt. 4 to 5 ft., B&B..... 3.50

SHADBUSH (*Amelanchier canadensis*)
Soft clouds of white flowers welcome spring, nodding from the tops of the tall branches of this clump-like, large shrub.
Hgt. 3 to 4 ft., B&B.....\$5.00
Hgt. 4 to 5 ft., B&B..... 7.50
Hgt. 5 to 6 ft., B&B.....10.00
Sizes up to 20 ft. on hand.

ALLEGHENY SERVICEBERRY (*Amelanchier laevis*)
To 40 feet. Leaves purplish when young. White flowers in nodding racemes.
Hgt. 3 to 4 ft., B&B.....\$3.95

BRILLIANT CHOKEBERRY (*Aronia arbutifolia 'Brilliantissima'*)
Clusters of shining red berries at the tips of gently nodding, slender stems.
Hgt. 3 to 4 ft., B&B.....\$3.50

JAPANESE BARBERRY (*Berberis Thunbergii*)
Popular green-leaved, thorny hedge plant with red berries in the fall.
Hgt. 15 to 18 in., BR.....Each 70c, doz. \$7.50
100 for \$55.00
Hgt. 18 to 24 in., BR.....Each 85c, doz. \$9.50
100 for \$70.00

RED-LEAVED BARBERRY (*Berberis Thunbergii 'Atropurpurea'*)
Hgt. 15 to 18 in., BR.....Each \$1.15, doz. \$11.75
Hgt. 18 to 24 in., BR.....Each 1.35, doz. 14.00

BUTTERFLY BUSH (*Buddleia Varieties*)
Long spikes of colorful flowers during midsummer, named for the many butterflies attracted to the summer flowers. 3-year-old plants, container grown.....\$1.95

CHINESE BEAUTYBERRY (*Callicarpa dichotoma*)
Bright rose-violet berries. Grows 4 to 5 feet tall.
Hgt. 3 to 4 ft., B&B.....\$4.95

SWEET SHRUB (*Calycanthus floridus*)
A grand old favorite sometimes called Strawberry Shrub. The fragrant, dark cinnamon-colored flowers are long lasting, followed by pods of fragrant, hard seeds.
Hgt. 2 to 3 ft., B&B.....\$3.00

BLUE MIST (*Caryopteris 'Blue Mist'*)
Handsome grey foliage, with the scent of sage. A compact, bushy, small shrub bearing clear deep blue flowers through the late summer.
In containers.....\$2.50

JAPANESE FLOWERING QUINCE (*Chaenomeles japonica*)
Reaches 3 to 6 feet. Brilliant scarlet-red flowers in April and May.
Hgt. 2 to 3 ft., B&B.....\$3.95

HYBRID VARIETIES \$3.00 to \$10.00, depending on size.

APPLEBLOSSOM
WHITE (*Nivalis*)
CORAL BEAUTY
CRIMSON BEAUTY
TEXAS SCARLET

FRINGE-TREE (*Chionanthus virginica*)
Handsome, almost tree-like, tall-growing shrub with hanging clusters of white, truly fringe-like flowers followed by blue, grape-like fruit. Large leaves give bold textural effect.
Hgt. 2 to 3 ft., B&B.....\$5.00
Hgt. 3 to 4 ft., B&B..... 6.00

SWEET PEPPERBUSH (*Clethra alnifolia*)
Upright, slow-growing shrub, treasured for its summer fragrance. Neat in habit, with fuzzy, white spiked terminal flower clusters.
Hgt. 3 to 4 ft., B&B.....\$4.00 to \$5.00

SHRUB DOGWOOD. See Flowering Trees.

SLENDER DEUTZIA (*Deutzia gracilis*)
A dwarf species, forming a low bushy shrub covered with small white flowers in May.
Hgt. 12 to 15 in., B&B.....\$1.95
Hgt. 15 to 18 in., B&B..... 2.50

KALMIA DEUTZIA (*Deutzia kalmiaeiflora*)
Grows to 3 feet. Kalmia-like pink flowers in clusters; inside petals white, outer pink.
Hgt. 18 to 24 in., B&B.....\$3.95

LEMOINE DEUTZIA (*Deutzia Lemoinei*)
Broad rounded bush to 4 feet. Broad clusters of pure white flowers in June.
Hgt. 18 to 24 in., B&B.....\$3.50

FLOWERING

Bright flowers, strikingly handsome berries, blazing

PRIDE OF ROCHESTER DEUTZIA (*Deutzia scabra 'Pride of Rochester'*)
Large white flowers tinged pink, borne profusely in summer.
Hgt. 3 to 4 ft., B&B.....\$3.50

RUSSIAN OLIVE (*Elaeagnus angustifolia*)
Handsome, silvery-grey foliage on large and vigorous, wide-spreading shrub. Tolerance of salt spray makes this a shore planting favorite.
Hgt. 3 to 4 ft.....BR \$2.95; B&B \$3.95
Hgt. 4 to 5 ft., B&B.....\$6.00 to 7.50

BELLFLOWER (*Enkianthus campanulatus*)
Slow and neat-growing, upright shrub. Ideal to relieve heavier evergreen foundation plantings. Red-veined, yellow-white, bell-like flowers hang in clusters below the neat, clean foliage. Brilliant red and yellow leaf colors in autumn.
In cans.....\$2.50
Hgt. 18 to 24 in., B&B..... 5.00
Hgt. 2 to 2½ ft., B&B.....\$6.00 to 7.50
Larger sizes available.

CORKBARK (*Euonymus alatus*)
Branches and twigs on this tall, wide-spreading shrub bear thick, corky ridges. Leaves are crisp and clean, turning spectacular crimson in autumn. Small yellow flowers are followed by red berries.
Hgt. 2 to 3 ft.....BR \$2.95; B&B \$4.00
Hgt. 3 to 4 ft., B&B.....\$6.00 to 9.00
Hgt. 4 to 5 ft., B&B.....10.00 to 12.00

EUROPEAN BURNING BUSH (*Euonymus europaeus*)
To 25 feet. Small leaved, showy in fall. Smooth pinkish-red fruit.
Hgt. 3 to 4 ft., B&B.....\$3.95

FORSYTHIA

ARNOLD DWARF (*Forsythia 'Arnold Dwarf'*). A 6-year plant may be 2 feet tall and 7 feet across. May not flower until several years old. Roots easily where branches touch ground.
Hgt. 2 to 3 ft., in can\$2.50

BEATRIX FARRAND (*Forsythia 'Beatrix Farrand'*). Striking, large, beige-yellow flowers with orange markings on hardest shrub.
Hgt. 2 to 3 ft., BR.....\$1.95

PRIMROSE GOLDENBELL (*Forsythia intermedia 'Primulina'*). Lovely delicate yellow flowers. Grows 6 to 8 feet tall.
Hgt. 4 to 5 ft., B&B.....\$4.95

LYNWOOD GOLD (*Forsythia intermedia 'Lynwood Gold'*). Large, brilliant golden-yellow, free-flowering form.
Hgt. 3 to 4 ft., BR.....\$1.95
Hgt. 4 to 5 ft., B&B..... 4.95

SHOWY BORDER FORSYTHIA (*Forsythia intermedia 'Spectabilis'*). Favorite medium-yellow, vigorous-growing form.
Hgt. 3 to 4 ft., BR.....\$1.75
Hgt. 4 to 5 ft., B&B..... 4.95

SPRING GLORY (*Forsythia intermedia 'Spring Glory'*). Light lemon-yellow flowers, especially handsome with early Azalea.
Hgt. 2 to 3 ft., BR.....\$1.95
Hgt. 3 to 4 ft., B&B..... 3.95
Hgt. 4 to 5 ft., B&B..... 4.95

WEeping FORSYTHIA (*Forsythia suspensa*)
Drooping branches. Flowers clear golden yellow in April. To 10 feet.
Hgt. 2 to 3 ft., BR.....\$1.50
Hgt. 6 to 7 ft., B&B..... 9.00
Larger sizes available on all varieties of Forsythia.

FOTHERGILLA (*Fothergilla major*)
Compact roundish shrub growing 10 feet tall. White flowers in May and June when in leaf. Foliage red and orange-yellow in fall.
Hgt. 4 to 5 ft., B&B.....\$10.00

SILVER BELL (*Halesia carolina*)
Hanging, bell-like, white flowers grace this large shrub in late spring.
Hgt. 4 to 5 ft.....BR \$3.95; B&B \$4.95

WITCH HAZEL (*Hamamelis vernalis*)
Small, fringed yellow flowers appear miraculously on bare, strong stems of this large shrub in February. Coarse, large leaves give handsome summer screening. Spring blooming
Hgt. 2 to 3 ft., BR.....\$2.75
Hgt. 3 to 4 ft., B&B..... 4.00

NATIVE WITCH HAZEL (*Hamamelis virginiana*)
Hgt. 2 to 3 ft., BR.....\$2.45
Hgt. 3 to 4 ft., B&B..... 4.00

ROSE OF SHARON or **SHRUB ALTHEA** (*Hibiscus syriacus*)
Tall, late summer-flowering, hardy Hibiscus. Large flowers in a variety of colors.
Hgt. 2 to 3 ft., BR.....\$1.95
Hgt. 2 to 3 ft., container grown..... 2.95

BLUE HYDRANGEA (*Hydrangea macrophylla*)
Large flower clusters, bright blue in acid soil.
In cans.....\$2.50
Heavy, 2 to 2½-ft. clumps..... 5.95

HILLS OF SNOW HYDRANGEA (*Hydrangea arborescens grandiflora*).
Shining white flowers in July.
Hgt. 3 to 4 ft., B&B.....\$3.50

PEE GEE HYDRANGEA (*Hydrangea paniculata 'Grandiflora'*)
Old favorite with immense pink and white conical flower clusters in late summer, remaining through the fall.
Hgt. 2 to 3 ft., BR.....\$1.95
Hgt. 3 to 4 ft., container grown..... 3.95

HIDCOTE HYPERICUM (*Hypericum 'Hidcote'*)
Twiggy shrub to 18 inches tall and as broad. Blooms at intervals from June to October. Bright yellow flowers 2 inches across.
In 1-gal. cans.....\$1.95

SUN GOLD HYPERICUM (*Hypericum 'Sun Gold'*, Plant Patent No. 568)
Dwarf, twiggy growth. Golden flowers.
12 to 15 in.....\$2.50

BLACK ALDER or **WINTERBERRY** (*Ilex verticillata*)
A deciduous Holly with bright red berries in fall and winter. Plant several to insure proper pollination.
Hgt. 18 to 24 in., BR.....\$1.95
Hgt. 2 to 3 ft., B&B..... 2.95
Hgt. 3 to 4 ft., B&B..... 4.00
Hgt. 5 to 6 ft., B&B..... 6.00

BLACK ALDER or **WINTERBERRY** (*Ilex verticillata 'Polycarpa'*)
To 10 feet. An improved form, self pollinating. Large bright red berries.
Hgt. 3 to 4 ft., B&B.....\$5.00

WINTER JASMINE (*Jasminum nudiflorum*)
Starry yellow bells in April or before leaves appear. Excellent for forcing. Grows 4 to 5 feet tall.
Container grown.....\$2.50

KERRIA (*Kerria japonica*)
Single and double flowered form. Stems bright green in winter. Yellow flowers from June to October. Grows to 6 feet.
Hgt. 3 to 4 ft., B&B.....\$3.50

BEAUTYBUSH (*Kolkwitzia amabilis*)
Small, light pink, trumpet-like flowers cover this graceful, tall shrub during the late spring. Small leaves give fine-textured effect, handsome in contrast with heavier leaves of Viburnums.
Hgt. 18 to 24 in., BR.....\$1.50
Hgt. 2 to 3 ft., B&B..... 2.95
Hgt. 3 to 4 ft., B&B..... 4.00
Hgt. 4 to 5 ft., B&B..... 5.00

PRIVET

Sturdy, rapid-growing and inexpensive shrubs.

AMUR (*Ligustrum amurense*). Hardest, upright hedge form. Recommended in cold, exposed locations.
Hgt. 2 to 3 ft., BR.....Doz. \$6.25, 100 for \$40.00

IBOLIUM (*Ligustrum Ibolium*). Semi-evergreen; a graceful spreading specimen or an excellent clipped hedge. Grows 8 to 10 feet.
Hgt. 2 to 3 ft., BR.....Each 50c, 100 for \$40.00

REGEL'S BORDER (*Ligustrum Ibota 'Regelianum'*). To 8 feet. Dull green foliage. Black berries in fall and winter; white flowers in July.
Hgt. 1½ to 2 ft.....\$1.00
Hgt. 2½ to 3 ft..... 2.00
Hgt. 3 to 4 ft..... 2.50

CALIFORNIA (*Ligustrum ovalifolium*). Most common upright hedge, glossy leaved and economical.
Hgt. 2 to 3 ft., BR.....100 for \$35.00

SPICEBUSH (*Lindera Benzoin*)
Grows 10 to 12 feet. Tiny yellow fringed flowers in April. Scarlet berries in September; yellow leaves in fall.
Hgt. 2 to 3 ft., BR.....\$1.50
Hgt. 3 to 4 ft., B&B..... 4.00

G S H R U B S

leaf colors and fascinating branch patterns.

WINTER HONEYSUCKLE (*Lonicera fragrantissima*)
Small fragrant white flowers in March before foliage; semi-evergreen. Reaches 6 to 8 feet.

Hgt. 3 to 4 ft., BR.....\$2.00
Hgt. 4 to 5 ft., B&B..... 5.00

MORROW HONEYSUCKLE (*Lonicera Morrowii*)
Creamy to yellow flowers in May and bright red berries in July. Gray-green foliage. Grows 7 to 8 feet high.

Hgt. 2 to 3 ft., BR.....\$1.50
Hgt. 3 to 4 ft., B&B..... 4.00

TATARIAN HONEYSUCKLE (*Lonicera tatarica* 'Alba')
Fast-growing, large shrub. Fragrant white flowers, followed by bright red berries. Forms an economical and effective screen for sunny and shady locations.

Hgt. 3 to 4 ft., BR.....\$1.95
Hgt. 4 to 5 ft., B&B..... 4.95

RED ZABEL HONEYSUCKLE (*Lonicera Korolkowii* Zabelii)
Reaches 10 feet in height. Bluish-green, broad leaves. Flowers deep pink, in May and June. Bright red berries.

In cans.....\$1.75
BAYBERRY (*Myrica pensylvanica*)

Native shrub seldom over 5 feet high, with handsome shiny leaves and waxy grey berries with delightful fragrance. Thrives on poor soils.
Hgt. 15 to 18 in., B&B.....\$3.95

MOCKORANGE

Large-growing, upright shrubs with many white flowers in late spring.

SWEET (*Philadelphus coronarius*). An old-fashioned type treasured for its sweet fragrance and many single flowers covering the large shrubs.

Hgt. 3 to 4 ft., BR.....\$2.95
LEMOINE (*Philadelphus Lemoinii*). Fragrant, semi-double white flowers. Small leaves on a compact, 4 to 5-foot shrub.

Hgt. 3 to 4 ft., B&B.....\$4.00
DOUBLE (*Philadelphus virginialis*). Erect, very double flowering form, with some fragrance.

Hgt. 2 to 3 ft., BR \$1.25; B&B \$2.95
Hgt. 3 to 4 ft., B&B..... 3.95

CHRISTMASBERRY (*Photinia villosa*)
The glossy dark green foliage turns brilliant red in fall. Small white flowers followed by red berries. Grows 12 to 15 feet tall.

Hgt. 3 to 4 ft., B&B.....\$3.95

FLOWERING ALMOND (*Prunus glandulosa*)
WHITE ALMOND CHERRY (*Prunus glandulosa* 'Alba')

Hgt. 1 1/2 to 2 ft., B&B.....\$2.50
PINK ALMOND CHERRY (*Prunus glandulosa* 'Rosea')

Hgt. 1 1/2 to 2 ft., B&B.....\$2.50
BEACH PLUM (*Prunus maritima*). Small white flowers in April. Ideal for sandy soil and seaside planting. Fruit is used in jelly making.

Hgt. 3 to 4 ft., B&B.....\$3.95
DOUBLE FLOWERING PLUM (*Prunus triloba* 'Plena').

Bright pink, double flowers on each branch in May before the leaves. Grows 7 to 8 feet high.

Hgt. 3 to 4 ft., B&B.....\$5.95

JETBEAD (*Rhodotypos kerrioides*)
Spreading shrub growing to 6 feet in height and width, with fine, rough-surfaced leaves. Grows well in sun or shade, with single white flowers in June followed by glistening jet-black berries.

Hgt. 3 to 4 ft., BR \$2.95; B&B \$4.00
FLOWERING CURRANT (*Ribes odoratum*)

Yellow florets in a cluster in early spring, on a 5 to 10-foot shrub.

Hgt. 2 to 3 ft., BR.....\$1.50
ANTHONY WATERER SPIREA (*Spiraea Bumalda* 'Anthony Waterer')

Compact, short-growing, bushy shrub with flat clusters of deep rose-pink flowers in July.

Container grown.....\$1.75
Hgt. 2 1/2 to 3 ft., B&B..... 3.95

EVERBLOOMING PINK SPIREA (*Spiraea macrothyrsa*)
Bright pink florets in panicles.

Hgt. 2 to 3 ft., BR.....\$2.00
Hgt. 3 to 4 ft., B&B..... 4.00

OLD FASHIONED BRIDAL WREATH (*Spiraea prunifolia*)
Upright growing, of medium height, with many small white rose-like flowers up and down the stems.

Hgt. 3 to 4 ft., B&B.....\$3.50
Hgt. 4 to 5 ft., B&B..... 5.00

VANHOUTTE SPIREA (*Spiraea Vanhouttei*)

Best known and loved Spirea. Graceful, fountain-like, arching branches are weighted to the ground with clusters of snow-white flowers.

Container grown.....\$1.95
CUTLEAF STEPHANANDRA (*Stephanandra flexuosa*)

Small clusters of white flowers in June.
Hgt. 2 to 3 ft., BR.....\$1.95

Hgt. 2 to 3 ft., B&B..... 3.00
SNOWBERRY (*Symphoricarpos albus laevigatus*)

Clusters of large, pure white berries in late summer and remaining through the fall and into winter.
Hgt. 3 to 4 ft., BR \$1.95; B&B \$3.95

PINK CORALBERRY (*Symphoricarpos Chenaultii*)
Bears clusters of bright pink berries along the slender stems.

Hgt. 3 to 4 ft., BR.....\$1.95
SWEETLEAF (*Symplocos paniculata*)

A tall, wide spreading shrub reaching 25 to 40 feet in height. Small clusters of white fragrant flowers in late spring.

Hgt. 3 to 4 ft., B&B.....\$3.00
HUNGARIAN LILAC (*Syringa Josikaea*)

Pale violet flowers in late spring. 15 feet tall.
Hgt. 3 to 4 ft., B&B.....\$4.95

DAPHNE LILAC (*Syringa microphylla* 'Superba')
Reddish buds and pale pink flowers. Blooms about last week in May.

Hgt. 4 to 5 ft., B&B.....\$6.75
PINK PEARL LILAC (*Syringa swegiflexa*)

Rhodamine-pink flowers in early June. 7 feet tall.
Hgt. 4 to 5 ft., B&B.....\$6.75

LATE LILAC (*Syringa villosa*)
Pale pinkish-lilac, fragrant flowers in early June. Compact, bushy habit.

Hgt. 8 to 10 ft., B&B.....\$18.00
COMMON PURPLE LILAC (*Syringa vulgaris*)

Light purple, very fragrant, single flowers on tall, strong, bushy-growing shrubs. Excellent as a tall hedge or a screen. Blooms about the third week in May.

Hgt. 3 to 4 ft., BR \$1.95; B&B \$4.95
COMMON WHITE LILAC (*Syringa vulgaris* 'Alba')

Very fragrant.
Hgt. 2 to 3 ft., BR.....\$1.95

Hgt. 3 to 4 ft., B&B.....\$5.00 to 7.50
Hgt. 4 to 5 ft., B&B..... 10.00

Hgt. 5 to 6 ft., B&B..... 12.00 to 15.00
Hgt. 6 to 8 ft., B&B..... 18.00 to 22.00

FRENCH HYBRID LILACS (*Syringa vulgaris* hybrids)
Wonderful color range of both single and double varieties, with the largest flower trusses. The most spectacular Lilacs when in bloom, about the third week in May.

Though not all varieties are available in every size, following are a few from the over 30 available. \$2.95 & up.

BELLE DE NANCY. Double pink.
CONGO. Dark purple.

F. MOREL. Single red.
HENRI LUTECE. Single light violet.

HUGO KOSTER. Single mauve.
KATHARINE HAVEMEYER. Double cobalt-blue, pinkish.

LUCIE BALTET. Single delicate coppery pink.
LUDWIG SPAETH. Single dark purple-red.

MME. FLORENT STEPMAN. Single white.
MME. LEMOINE. Double white.

MONUMENT. Single white.
PAUL HARIOT. Double dark purplish-lilac.

PRESIDENT GREVY. Double pink.
PRESIDENT LINCOLN. Single deep Wedgwood-blue.

PRESIDENT ROOSEVELT. Single red.
SENSATION. Lavender center, white border.

VIBURNUM

This widely varying genus includes some of our most valued flowering shrubs for landscape planting.

YEDDO (*Viburnum bitchiense*). Very much like *V. Carlesii* but less compact, with smaller leaves and flower.

Container grown.....\$2.50
BURKWOOD (*Viburnum Burkwoodii*). Sweet-scented, waxy blush-white flowers in May and June.

Container grown.....\$2.50
FRAGRANT SNOWBALL (*Viburnum Carlecephalum*).

Large clusters of fragrant white flowers; bright foliage in fall. Grows 6 to 7 feet high.

In 1-gal. cans.....\$2.50
Hgt. 1 1/2 to 2 ft., B&B..... 6.00

Hgt. 2 to 3 ft., B&B..... 8.95

VIBURNUM, continued

KOREAN SPICE VIBURNUM (*Viburnum Carlesii*). Once you enjoy the spicy fragrance of these blush-pink blooms, you won't be without it near your terrace or porch. 5 to 6 feet tall.

Container grown.....\$2.50
Hgt. 18 to 24 in., B&B..... 4.50

Hgt. 2 to 2 1/2 ft., B&B..... 5.95
Hgt. 2 1/2 to 3 ft., B&B..... 6.95

WITHE-ROD (*Viburnum cassinoides*). White flowers in June. Fruit changes from pale green to red, then to purple and black in October. Grows 6 to 8 feet tall.

Hgt. 18 to 24 in.....\$1.50
Hgt. 2 1/2 to 3 ft., B&B..... 2.50

Hgt. 3 to 4 ft., B&B..... 3.25
ARROW-WOOD (*Viburnum dentatum*). Fine for flowering hedge or screen, because of its bushy base and many upright stems. White flowers in clusters, followed by blue-black berries and red to yellow fall leaf color.

Hgt. 3 to 4 ft., BR.....\$1.95
Hgt. 4 to 5 ft., B&B..... 5.00

LINDEN VIBURNUM (*Viburnum dilatatum*). Brilliant, shining scarlet berries in fall. Leathery leaves on broad and vigorous shrub.

Hgt. 3 to 4 ft., BR \$1.95; B&B \$4.50
Hgt. 4 to 5 ft., B&B.....\$6.00 to 10.00

IMPROVED JAPANESE SNOWBALL (*Viburnum grandiflorum*). New. Huge pure white flowers. To 6 feet tall.

Container grown.....\$3.50
JUDD VIBURNUM (*Viburnum Juddii*). An improved *V. Carlesii*.

Container grown.....\$2.50
DWARF EUROPEAN CRANBERRY BUSH (*Viburnum Opulus* 'Nanum'). A tiny dwarf with dense Maple-like leaves. Ideal for small hedges.

Container crown.....\$2.50
GOLDEN-FRUITED CRANBERRY BUSH (*Viburnum Opulus* 'Xanthocarpum'). Yellow fruit.

Hgt. 4 to 5 ft., B&B.....\$6.00
TEA VIBURNUM (*Viburnum setigerum*). Most brilliant and heavy berrying of all. Fuzzy white flower clusters replaced by orange-red berries.

Hgt. 18 to 24 in., in 2-gal. cans.....\$2.50
Hgt. 2 to 3 ft., B&B..... 4.00

Hgt. 3 to 4 ft., B&B..... 5.00
SIEBOLD VIBURNUM (*Viburnum Sieboldii*). Vigorous, large-leaf type, almost tropical in texture. Large, off-white flower clusters are followed by glistening red berries.

Container grown.....\$2.50
Hgt. 2 to 3 ft., B&B..... 4.00

Hgt. 3 to 4 ft., B&B..... \$5.00 to 6.00
DOUBLEFILE VIBURNUM (*Viburnum tomentosum*). Also called Single Japanese Snowball. This handsome large shrub rivals the Dogwood for its flat double rows of flower clusters on horizontal branches. Followed in the late summer by bright red berry clusters and then deep red fall leaf color.

Container grown.....\$2.50
Hgt. 3 to 4 ft., B&B..... 4.50

Hgt. 4 to 5 ft., B&B..... \$6.00 to 7.50
Hgt. 5 to 6 ft., B&B..... 10.00 to 12.00

JAPANESE SNOWBALL (*Viburnum tomentosum* 'Sterile'). Full round clusters of clear white flowers on large spreading shrub. Handsome red fall leaf color.

Container grown.....\$2.50
Hgt. 3 to 4 ft., B&B..... 4.95

Hgt. 4 to 5 ft., B&B..... 7.50
WRIGHT VIBURNUM (*Viburnum Wrightii*). A new and improved form, similar to the Linden Viburnum but with many more berry clusters on a more compact and slower-growing shrub.

Container grown.....\$2.50
Hgt. 2 to 3 ft., B&B..... 5.00

WEIGELA

Large-growing, broad shrubs with myriads of trumpet-like flowers in late spring, available in several colors.

BRISTOL RUBY (*Weigela* 'Bristol Ruby').
Container grown.....\$1.75

Hgt. 4 to 5 ft., B&B..... 4.50
SNOW (*Weigela candida*). Creamy-white.

Hgt. 5 to 6 ft., B&B.....\$6.00
ROSEA (*Weigela florida*). Soft rosy-pink.

Hgt. 2 to 3 ft., BR.....\$1.95
Hgt. 3 to 4 ft., B&B..... 4.00

Hgt. 4 to 5 ft., B&B.....\$5.00 to 7.50
NEWPORT RED (*Weigela Vanicekii*). Intense ruby-red flowers, often repeating with scattered bloom in late summer and fall.

Hgt. 3 to 4 ft., BR \$1.95; B&B \$4.00
Hgt. 4 to 5 ft., B&B.....\$5.00 to 7.50

PINK FLOWERING DOGWOOD

WHITE FLOWERING DOGWOOD

RED BUD

In early spring this handsome shrub-like tree miraculously produces clusters of lavender-pink blooms seemingly from the dark bark itself. Appearing before the leaves and on very short stems, pea-like flowers are especially prized in alkaline soil areas where Dogwood will not thrive. Heart-shaped leaves, turning yellow in autumn, provide extra interest.

RED BUD

GOLDEN CHAIN TREE

DOGWOODS

Among the flowering trees, our native White Flowering Dogwood is undoubtedly better known than any other. Driving through the countryside in May, one can easily understand this popularity.

For garden planting the Pink Flowering Dogwood rivals the White in popularity. Both bear their showy, four-parted "flowers" at the tips of small twigs along the wonderfully undulating horizontal branches. Smooth, rich green leaves follow the flowers and in late summer the stunning red fruits are visible. If the larger songbirds and squirrels are not too hungry, the fruit will last through autumn, as the leaves turn brilliant red with orange and maroon overtones.

Less well known is the Kousa Dogwood, a more bushy species, flowering in late June after the leaves have emerged. The color is creamy white and the "petals" are pointed at the tip and much longer lasting.

FLOW

HAWTHORNS

The native species of the handsome Flowering Hawthorns are often considered weeds by farmers and praised by gardeners because of their ability to grow without care on poor neglected pastures.

Washington Hawthorn is prized for its vigorous growth in either single-stem tree form or multi-stemmed with bushy base. The top is twiggy and dense, even in winter, and may be sheared into a strikingly handsome large hedge or screen. The white flowers emerge in late spring and are followed by clusters of berries which turn shining brick-red in late summer and remain colorful into winter when the birds finally devour them. In autumn the leaves turn handsome red, orange and maroon.

A somewhat shorter cousin is the Cockspur Hawthorn, which is often more bushy in habit though especially striking in older multi-stemmed plants. The leaves show a metallic luster throughout the summer and turn dark bronze in fall. Flowers are white, followed by larger, clear red berries which are so favored as food by the birds they seldom last long in the autumn.

FLOWER

GOLDEN CHAIN TREE

Resembling the flower form and long cluster of the Wisteria, the hanging clusters of bright yellow flowers are unique on this small tree. The habit is sharply erect with a narrow vase-shaped top above the slender stem. The bark is distinctive for its smooth surface and olive-green color.

To insure success, select a sunny planting location with well-drained soil. A supporting stake is important until your Golden Chain Tree is well established. As with many of the soft-barked flowering trees, borer insects may be troublesome. To prevent injury, mix D.D.T. powder with Wilt-Pruf, making a paint-like mixture to coat the bark of stem and main branches.

SAUCER MAGNOLIA

MAGNOLIAS

Spectacular flower size in the Saucer Magnolias is unequalled by any other hardy flowering tree. Older plants form interestingly irregular clumps set off by grey bark. Flower colors range from almost pure white through the favorite light purple and white combination to almost pure purple.

The earlier Star Magnolia is distinguished by many narrow petals of white or blush-pink and shorter, more bushy habit.

FRANKLIN TREE

This somewhat tender and little-known small tree is most prized for early fall flowers. Creamy white petals are set off by orange stamens and deep bronze and red leaves. The occasional slight winter injury keeps the habit short and bushy without interfering with the flowers.

FRANKLIN TREE

ERING TREES

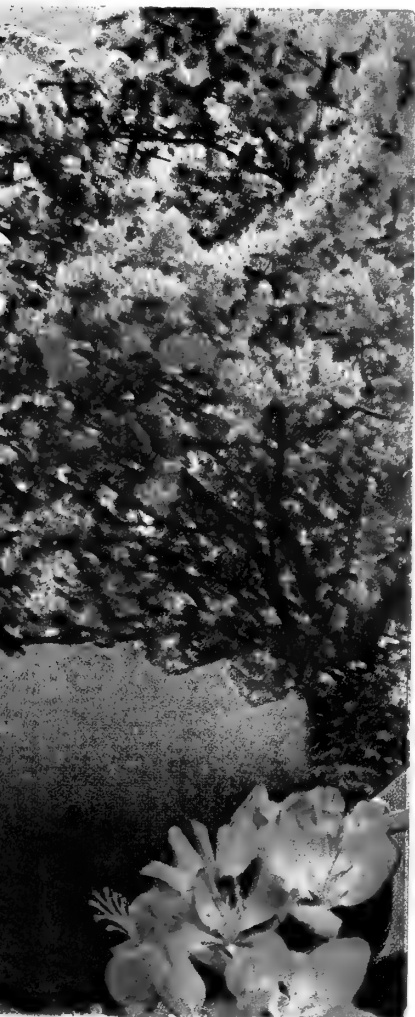

FLOWERING CRABS

Flowers, fruit and interesting branch patterns are combined in the Crabapples to form the most varied and versatile genus of ornamental trees. All thrive in well-drained soil and flower best in full sun.

Color varies from the red-budded but white-flowered Sargent through the complete range of pinks to the red of the Carmine and the purplish red of the 'Hopa' and Redvein Crabs. Arnold and the Showy Japanese Crabs are very similar, each with deep rose-pink buds opening to almost white. 'Katherine,' an outstanding new selection, and the Tea Crab are delicate, clear pink, but a little deeper in bud. 'Hopa,' a longtime favorite, bears large flowers of deep rose-pink. 'Almey,' an extremely vigorous variety, is deep rose-pink with a white star-like effect at the center. The Redvein Crab has purplish red flowers combined with reddish green foliage.

During the late summer and early fall, the various sized fruit matures in different colors. Most colorful of all is the berry-like, bright red fruit of the Sargent, an exception to the general rule that light-colored flowers and fruit usually go together. Arnold, Showy Japanese and Carmine bear small yellow fruit, some with pink cheek. 'Hopa' fruit is cherry-like and yellow with distinct rosy red cheek, while 'Almey' is still more red in color. Redvein Crabapples are prized for jelly and pickling, for their larger size and deep red-purple color of skin and flesh.

Habits vary from the zig-zag branches of the dwarf Sargent through the wide-spreading and irregular Arnold, Showy Japanese and Carmine Crabs to the upright types, 'Katherine' and the somewhat more vase-formed and coarsely branched Tea Crab. 'Almey' is very irregularly upright with Redvein more regular and 'Hopa' sharply regular and erect.

ING CRAB

WEeping CHERRY

JAPANESE CHERRIES

To the Japanese we are indebted for many of our most colorful garden shrubs and trees. None can surpass in color the flowering Cherries, many known by their Japanese names.

Earliest of all is the 'Beni Higan,' forming a cloud-like mass of very pale, single, pink flowers. Following soon are the semi-double and slightly larger flowers of the Autumnal Cherry, which each season blooms partially in late autumn. Both are bushy, short trees with finer branches than the more erect, later flowering types.

'Kwanzan' is by far the most popular of all for its large (2 inches across), double, deep pink flowers, hanging in clusters among the opening leaves along each branch. 'Mt. Fuji' bears equal-sized, pearly white flowers, while 'Shirofugen' blends these colors with pink buds opening white. Pale pink flowers on narrowly erect 'Amanogawa' and the ever-popular Weeping Cherry complete this varied group.

KWANZAN CHERRY

The Peter

CASCIO

NURSERY

2600 ALBANY AVE., WEST HARTFORD 17, CONN. • ADams 6-1609

Only a few varieties could be pictured on pages 16 and 17; many more are listed here. Still more are available for selection at the nurseries. Why not visit and make your selection?

B&B indicates Balled and Burlapped stock.

BR indicates Bare-Root stock.

RED HORSE-CHESTNUT (*Aesculus carnea*)

Reaches 35 to 40 feet in height. Showy scarlet flowers in spring.

Hgt. 6 to 8 ft., B&B.....\$20.00

HORSE-CHESTNUT (*Aesculus Hippocastanum*)

A stately, symmetrical tree with large clusters of ivory flowers in May and shiny-coated brown fruit in early fall. Hgt. 5 to 6 ft., B&B.....\$10.00

HARDY MIMOSA (*Albizia Julibrissin*)

Safe for Connecticut. The fern-like leaves emerge very late in the spring, casting a delicate airy shade. The pink brush-like flowers open during midsummer. Hgt. 6 to 8 ft., B&B.....\$15.00

RED BUD (*Cercis canadensis*)

Handsome shrub-like tree with large, heart-shaped leaves. Pea-shaped flowers along the stem are lavender-pink in early spring.

Hgt. 4 to 5 ft., BR.....\$4.95

Hgt. 4 to 5 ft., B&B..... 9.00

Hgt. 7 to 8 ft., B&B.....\$20.00 to 25.00

Hgt. 8 to 10 ft., B&B..... 30.00 to 35.00

Sizes up to 4-in. caliper on hand.

WHITE EASTERN RED BUD (*Cercis canadensis* 'Alba')

White-flowered form of Red Bud.

Hgt. 2 to 3 ft., B&B.....\$11.95

Sizes up to 8-in. caliper on hand.

YELLOW-WOOD (*Cladrastis lutea*)

A wide-spreading tree 30 to 40 feet tall, with bright green leaves changing to clear yellow in fall. Fragrant white flowers in June.

Hgt. 4 to 5 ft., B&B.....\$11.25

Cal. 2½ to 3 in., B&B..... 60.00

Cal. 3½ to 4 in., B&B..... 75.00

Sizes up to 10-in. caliper on hand.

FLOWERING DOGWOODS

Best-loved aristocrat of flowering trees. All transplanted balled and burlapped for uninterrupted growth.

Japanese Cherry

WHITE (*Cornus florida*). Our native species, but carefully nursery grown to insure your success.

Hgt. 2 to 3 ft.....\$4.50

Hgt. 3 to 4 ft..... 6.50

Hgt. 4 to 5 ft..... 9.00

Hgt. 5 to 6 ft.....\$12.00 to 15.00

Hgt. 6 to 7 ft..... 18.00 to 25.00

Hgt. 7 to 8 ft..... 30.00 to 35.00

Hgt. 8 to 10 ft..... 40.00 to 55.00

Hgt. 10 to 12 ft..... 60.00 to 95.00

CHEROKEE CHIEF (*Cornus florida* 'Cherokee Chief,' Plant Patent No. 1710). Bright red.

Hgt. 18 to 24 in., B&B.....\$3.50

Hgt. 5 to 6 ft., B&B.....20.00

PINK (*Cornus florida* 'Rubra'). Pink form of the native white. Slower growing.

Hgt. 2 to 3 ft.....\$6.95

Hgt. 3 to 4 ft.....10.00

Hgt. 4 to 5 ft.....\$15.00 to 18.00

Hgt. 5 to 6 ft..... 20.00 to 25.00

Hgt. 6 to 7 ft..... 30.00 to 35.00

Hgt. 7 to 8 ft..... 40.00 to 45.00

Larger sizes on hand.

KOUSA (*Cornus Kousa*). Late flowering and white, with bushy base.

Hgt. 2 to 3 ft.....\$6.25

Hgt. 3½ to 4 ft..... 9.95

Hgt. 4 to 5 ft.....12.50

Hgt. 5 to 6 ft.....15.00

Larger specimens on hand.

CORNELIAN CHERRY (*Cornus mas*). Clusters of small yellow flowers in March and April; cherry-like fruit in October. A sturdy tree 15 to 20 feet tall.

Hgt. 2 to 3 ft.....\$1.95

Hgt. 8 to 9 ft.....75.00

RED-STEMMED DOGWOOD (*Cornus stolonifera*). To 10 feet, dark red branches.

Hgt. 3 to 4 ft.....\$1.95

YELLOW-TWIG DOGWOOD (*Cornus Stolonifera* 'Flaviramea'). Bright yellow bark. Excellent for winter effects.

Hgt. 2 to 3 ft.....\$1.95

HAWTHORNS

Thorny trees prized for flowers and colorful fruit.

COCKSPUR (*Crataegus Crus-galli*). Bushy type with shining dark green leaves and bright red early fruit.

Hgt. 2 to 3 ft., B&B.....\$4.50

Hgt. 3 to 4 ft., B&B..... 5.95

LAVALLE (*Crataegus Lavalley*). Brick-red fruits remain all winter.

Hgt. 7 to 8 ft., B&B.....\$10.00

Hgt. 8 to 10 ft., B&B..... 15.00

ENGLISH (*Crataegus Oxyacantha*). White flowers on shapely tree. Subject to rust but delightful in flower.

Hgt. 8 to 10 ft., B&B.....\$17.50

Hgt. 10 to 12 ft., B&B..... 20.00

PAUL'S SCARLET (*Crataegus Oxyacantha* 'Paulii'). Very showy, double red flowers in May; fragrant red berries in fall.

Hgt. 4 to 5 ft., B&B.....\$7.95

Hgt. 5 to 6 ft., B&B..... 9.95

Hgt. 6 to 7 ft., B&B.....11.95

Hgt. 7 to 8 ft., B&B.....14.95

WASHINGTON THORN (*Crataegus Phaenopyrum*). Dense, twiggy branching and long sharp thorns provide safe nesting space for songbirds. White flowers in flat clusters during late spring become red-orange fruit covering the top in fall, remaining until eaten by the birds in early winter.

Hgt. 3 to 4 ft., B&B.....\$7.95

Hgt. 4 to 5 ft., B&B..... 9.95

Hgt. 6 to 7 ft., B&B.....14.95

Hgt. 7 to 8 ft., B&B.....20.00

Cal 1½ to 2 in., B&B.....35.00

Cal. 2½ to 3 in., B&B.....50.00

Cal. 3 to 3½ in., B&B.....75.00

Larger sizes on hand.

FLOW

Flowering trees pay top

PEARL-BUSH (*Exochorda Giralddii* 'Wilsonii')

A mass of 2-inch white flowers in May. Likes sunny, well-drained soil. Grows 8 to 10 feet high.

Hgt. 2 to 3 ft., B&B.....\$3.50

Hgt. 3 to 4 ft., B&B..... 5.00

FRANKLIN TREE (*Franklinia alatamaha*; *Gordonia alatamaha*)

Little-known, small and tender bushy tree. Creamy-white flowers open to reveal golden stamens in late summer. Glossy large leaves turn red and orange in the fall.

Hgt. 2 to 3 ft., B&B.....\$6.00 to \$11.00

GOLDENRAIN TREE (*Koelreuteria paniculata*)

Round-headed tree with large compound leaves and many yellow flowers in broad panicles up to 18 inches long.

Hgt. 2 to 3 ft., B&B.....\$2.50

Hgt. 3 to 4 ft., B&B..... 4.00

GOLDEN CHAIN (*Laburnum Vossii*)

This erect, narrow, small tree bears long pendulous clusters of bright yellow flowers.

Hgt. 5 to 6 ft., B&B.....\$7.50

Cal. 1½ to 2 in., B&B.....25.00

Cal. 2 to 2½ in., B&B.....35.00

Cal. 2½ to 3 in., B&B.....45.00

Cal. 3 to 3½ in., B&B.....60.00

Cal. 3½ to 4 in., B&B.....75.00

MAGNOLIA

Early large flowers on bushy trees. Long lived and much admired.

SAUCER (*Magnolia Soulangeana*). Large cup-like flowers are deep purplish-pink at the base, shading to white at the top; large leaves give tropical texture.

In 1-gal. cans.....\$2.95

Hgt. 2 to 3 ft., B&B..... 5.95

Hgt. 3 to 4 ft., B&B..... 9.00

Hgt. 4 to 5 ft., B&B.....12.00

Hgt. 5 to 6 ft., B&B.....16.00

Hgt. 6 to 7 ft., B&B.....\$20.00 to 25.00

Hgt. 7 to 8 ft., B&B..... 30.00 to 35.00

Hgt. 8 to 10 ft., B&B..... 40.00 to 50.00

PURPLE (*Magnolia Soulangeana* 'Lennei'). Brown-purple flowers, white inside. One of the latest Magnolias to bloom. Rapid grower.

Hgt. 15 to 18 in., B&B.....\$4.00

In 2-gal. cans..... 4.95

Hgt. 18 to 24 in., B&B..... 6.00

Hgt. 2 to 3 ft., B&B..... 8.00

Hgt. 3 to 4 ft., B&B.....10.00

Hgt. 4 to 5 ft., B&B.....15.00

Hgt. 5 to 6 ft., B&B.....20.00

DARK SAUCER (*Magnolia Soulangeana* 'Nigra').

Flowers rich purple on outside, whitish inside.

In 2-gal. cans.....\$4.95

STAR (*Magnolia stellata*). Star-like white flowers of many petals open in early spring, often showing faint pink blush. Plants are very shrub-like, achieving tree character only with considerable age.

In 1-gal. cans, 8 to 12 in.....\$3.95

Hgt. 3½ to 4 ft., B&B.....20.00

Hgt. 4 to 5 ft., B&B.....30.00

Hgt. 5 to 6 ft., B&B.....40.00

ROSY STAR (*Magnolia stellata* 'Rosea'). Pink-flowering form of *M. stellata*.

Hgt. 3½ to 4 ft., B&B.....\$25.00

Hgt. 4 to 5 ft., B&B..... 30.00

Hgt. 5 to 6 ft., B&B..... 35.00

FLOWERING CRABAPPLES

Glorious spring colors, variety of interesting shapes and decorative fall fruit make this group outstanding.

HOPA (*Malus adstringens* 'Hopa'). Upright and regular tree with deep rose-pink flowers and bright yellow-red crabapples.

Hgt. 5 to 6 ft., BR.....\$4.95

Hgt. 5 to 6 ft., B&B.....10.00

Hgt. 6 to 7 ft., B&B.....15.00

Hgt. 7 to 8 ft., B&B.....\$20.00 to 25.00

Hgt. 8 to 9 ft., B&B..... 30.00 to 35.00

Hgt. 9 to 10 ft., B&B..... 40.00 to 45.00

Hgt. 10 to 12 ft., B&B.....55.00

E R I N G T R E E S

dividends in spring bloom, cooling summer shade and decorative fall fruit.

FLOWERING CRABAPPLES, continued

ALMEY (*Malus 'Almey'*). Bright rose-red flowers with white spots giving star-like effect. Growth is vigorous and habit irregularly upright.

Hgt. 4 to 5 ft., BR.....\$3.75
Hgt. 5 to 6 ft., B&B.....10.00
Hgt. 6 to 7 ft., B&B.....15.00
Hgt. 7 to 8 ft., B&B.....\$20.00 to 25.00
Hgt. 8 to 9 ft., B&B.....30.00 to 35.00
Hgt. 9 to 10 ft., B&B.....40.00 to 45.00

ARNOLD (*Malus Arnoldiana*). Bright pink buds open to almost pure white flowers. Spreading tree with interestingly irregular branches.

Hgt. 4 to 5 ft., BR.....\$3.75
Hgt. 4 to 5 ft., B&B.....10.00
Hgt. 5 to 6 ft., B&B.....15.00

SIBERIAN (*Malus baccata*). Profuse white flowers. One of the taller Crabs.

Hgt. 4 to 5 ft., BR.....\$3.95

CHARLOTTE (*Malus coronaria 'Charlottae'*). Double, buff-apricot flowers open to pale flesh-pink. Broad, small tree. Resembles 'Bechtel' Crabapple.

Hgt. 4 to 5 ft., BR.....\$3.75
Hgt. 5 to 6 ft., B&B.....10.00

DOLGO (*Malus 'Dolgo'*). Single, pure white flowers and large red fruit. Good for jelly.

Hgt. 5 to 6 ft., B&B.....\$10.00

DOROTHEA (*Malus 'Dorothea'*). One of the best. Semi-double or double-pink flowers, unfading. Small bright yellow fruit. Ripens late.

Hgt. 5 to 6 ft., B&B.....\$8.95

SHOWY JAPANESE (*Malus floribunda*). Habit similar to Carmine Crab, with irregular spreading and upright branches. Buds are deep reddish-pink, opening light pink and fading to white. Small yellow fruit is attractive and a prized food for songbirds.

Hgt. 4 to 5 ft., BR.....\$3.75

PARKMAN (*Malus Halliana 'Parkmanii'*). Semi-double pink flowers. Compact habit; slow growing. One of the most beautiful ornamental Crabapples.

Hgt. 4 to 5 ft., BR.....\$3.75
Hgt. 4 to 5 ft., B&B.....10.00

TEA (*Malus hupehensis*). Upright vase-shape top with coarse branches. Flowers along the stem are shell-pink and slightly bell-like. Fruit is handsome yellow and red.

Hgt. 5 to 6 ft., B&B.....\$15.00 to \$20.00
Hgt. 6 to 7 ft., B&B.....25.00 to 30.00
Hgt. 7 to 8 ft., B&B.....35.00 to 40.00
Hgt. 8 to 9 ft., B&B.....45.00 to 50.00

BECHTEL (*Malus ioensis 'Plena'*). Fragrant double pink flowers in late May.

Hgt. 6 to 7 ft., B&B.....\$15.00
Hgt. 7 to 8 ft., B&B.....20.00
Cal. 1½ in., B&B.....25.00
Cal. 1½ to 2 in., B&B.....35.00

KATHERINE (*Malus 'Katherine'*). A valued new variety with double soft pink flowers. Top is upright and vase formed, somewhat like the Tea Crab. The occasional fall flowers are most welcome.

Hgt. 4 to 5 ft., BR.....\$5.00
Hgt. 4 to 5 ft., B&B.....10.00
Hgt. 5 to 6 ft., B&B.....\$15.00 to 20.00

KAIDO (*Malus micromalus*). Fragrant soft pink flowers. Tree 8 to 10 ft. tall.

Hgt. 4 to 5 ft., BR.....\$5.75
Hgt. 4 to 5 ft., B&B.....12.50
Hgt. 5 to 6 ft., B&B.....15.00

PRINCE GEORGES (*Malus 'Prince Georges'*). A less-known hybrid from the old favorite 'Bechtel' Crab. Flowers have many more petals, leaves are narrower and unaffected by rust. Color is clear pink, like the parent.

Hgt. 4 to 5 ft., BR.....\$5.00
Hgt. 4 to 5 ft., B&B.....10.00
Hgt. 5 to 6 ft., B&B.....15.00

ELEY (*Malus purpurea 'Eleyi'*). A deep rose-red-flowered, vigorous-growing variety. New leaves are purplish-red, turning dark green. Handsome purple-red crabapples in autumn.

Hgt. 5 to 6 ft., BR.....\$3.75
Hgt. 6 to 7 ft., B&B.....\$15.00 to 20.00
Hgt. 7 to 8 ft., B&B.....25.00 to 30.00
Sizes up to 8-in. caliper on hand.

FLOWERING CRABAPPLES, continued

SARGENT (*Malus Sargentii*). An outstanding very dwarf species valued for extremely zig-zag branch pattern, pink buds opening pure white and small shiny red crabapples in the fall.

Hgt. 3 to 4 ft., BR.....\$3.95
Hgt. 3 to 4 ft., B&B.....10.00
Hgt. 4 to 5 ft., B&B.....\$15.00 to 20.00
Hgt. 6 to 7 ft., B&B.....35.00

SCHEIDECKER (*Malus Scheideckeri*). Double clear pink flowers along upright stems. Yellow-orange fruit in the fall.

Hgt. 5 to 6 ft., B&B.....\$15.00 to \$20.00
Hgt. 6 to 7 ft., B&B.....25.00 to 30.00
Hgt. 7 to 8 ft., B&B.....35.00 to 40.00

CHINESE (*Malus spectabilis*). Semi-double, delicate pink flowers grace the upright branches, followed by clear yellow fruit.

Hgt. 6 to 7 ft., B&B.....\$20.00 to \$30.00
Hgt. 7 to 8 ft., B&B.....35.00 to 40.00

REDVEIN (*Malus sylvestris 'Niedzwetzkyana'*). Leaves, flowers, fruit and bark are red-purple.

Hgt. 5 to 6 ft., B&B.....\$7.95
Hgt. 6 to 7 ft., B&B.....14.95
Cal. 1 to 1½ in., B&B.....19.95
Cal. 1½ to 2 in., B&B.....24.95
Cal. 2 to 2½ in., B&B.....50.00

SORREL TREE (*Oxydendrum arboreum*)
Gracefully nodding flowers open in midsummer, then become tiny seed capsules remaining through fall. Shining leaves turn deep maroon, red and orange in early fall. Wonderful in combination with Azaleas, Laurel, Rhododendron and Andromeda.

Hgt. 5 to 6 ft., B&B.....\$15.00
Hgt. 6 to 7 ft., B&B.....20.00
Hgt. 7 to 8 ft., B&B.....\$25.00 to 30.00
Hgt. 8 to 9 ft., B&B.....35.00 to 40.00
Hgt. 9 to 10 ft., B&B.....45.00 to 50.00
Larger sizes available.

FLOWERING PLUM (*Prunus cerasifera 'Thundercloud'*)
Deep purple leaves throughout the growing season plus graceful light pink flowers in spring. This is a much improved form of the old favorite 'Pissardii.'

Hgt. 4 to 5 ft., BR.....\$4.95
Hgt. 5 to 6 ft., B&B.....\$12.00 to 15.00
Hgt. 6 to 7 ft., B&B.....18.00 to 20.00

JAPANESE FLOWERING CHERRY

Showy white and pink spring flowers so admired in Washington, D. C., and dependably hardy in this region.

AMANOGAWA (*Prunus serrulata 'Amanogawa'*). Sharply erect, narrow-growing variety with semi-double pale pink blossoms along the stems, a handsome accent.
Hgt. 4 to 5 ft., BR.....\$5.95
Hgt. 5 to 6 ft., B&B.....15.00

KWANZAN (*Prunus serrulata 'Kwanzan'*). Vigorous upright vase form with large powderpuff-like flowers of rich pink. Large leaves cast dense shade. The most popular Japanese Flowering Cherry.

Hgt. 4 to 5 ft., BR.....\$5.95
Hgt. 4 to 5 ft., B&B.....12.00
Hgt. 5 to 6 ft., B&B.....15.00
Hgt. 6 to 7 ft., B&B.....20.00
Hgt. 7 to 8 ft., B&B.....25.00
Hgt. 8 to 9 ft., B&B.....\$30.00 to 35.00
Hgt. 9 to 10 ft., B&B.....40.00

MT. FUJI (*Prunus serrulata 'Mt. Fuji'*). Similar in habit and flower size to 'Kwanzan' but slower growing and with delicate pink bud opening pure white.

Hgt. 4 to 5 ft., BR.....\$5.95
Hgt. 4 to 5 ft., B&B.....12.00

PAUL WOHLERT (*Prunus serrulata 'Paul Wohlert'*). Like 'Kwanzan' but dwarf.

Cal. 2 to 2½ in., B&B.....\$30.00
Cal. 2½ to 3 in., B&B.....35.00

BENI HIGAN (*Prunus subhirtella 'Beni Higan'*). Fine-twigged and dense spreading tree bearing many small light pink flowers in early spring. Adds a delicate cloud-like feeling in bloom.

Hgt. 4 to 5 ft., BR.....\$5.95
Hgt. 4 to 5 ft., B&B.....12.00

JAPANESE FLOWERING CHERRY, continued

WEeping JAPANESE CHERRY (*Prunus subhirtella 'Pendula'* and *'Pendula Flore Plena'*). Semi-double, clear soft pink flowers on weeping branchlets. Two striking specimen forms are available, one with natural stem and weeping branches throughout, the other with grafted straight unbranched stems crowned by graceful weeping branches.

Hgt. 4 to 5 ft., B&B.....\$13.00
Hgt. 5 to 6 ft., B&B.....14.00
Cal. 1½ to 2 in., B&B.....15.00
Cal. 2 to 2½ in., B&B.....20.00
Cal. 2½ to 3 in., B&B.....25.00

DOUBLE FLOWERING PLUM (*Prunus triloba 'Plena'*). Bright pink double flowers on each branch in May before the leaves.

Hgt. 2 to 3 ft., B&B.....\$4.95
Hgt. 3 to 4 ft., B&B.....5.95

YOSHINO (*Prunus yedoensis*). Pale pink flowers. Widely planted around Tidal Basin in Washington, D. C.
Cal. 2½ to 3 in.....\$40.00
Cal. 3 to 3½ in.....50.00
Cal. 3½ to 4 in.....75.00
Cal. 4½ to 5 in.....100.00

JAPANESE PAGODA TREE (*Sophora japonica*)
Seldom seen, interesting larger tree with compound leaves. Flowers open in late summer and are cream colored, in long loose panicles.

Hgt. 4 to 5 ft., B&B.....\$15.00
Hgt. 5 to 6 ft., B&B.....20.00

EUROPEAN MOUNTAIN ASH (*Sorbus Aucuparia*)
Erect, tall-growing tree, valued for shade and the white flower clusters followed by brilliant orange berries.

Hgt. 8 to 9 ft., B&B.....\$15.95
Cal. 2 to 2½ in., B&B.....29.95
Cal. 2½ to 3 in., B&B.....34.95
Cal. 3 to 3½ in., B&B.....39.95

JAPANESE STEWARTIA (*Stewartia Pseudo-Camellia*)
A tall tree with camellia-like flowers in summer. Flaking red bark.

Container grown.....\$3.95
Hgt. 3 ft., B&B.....20.00

JAPANESE SNOWBELL (*Styrax japonica*)
White bell-like flowers in late June hang throughout the bushy small tree. Seed capsules in late summer and fall are intriguing.

Hgt. 2 to 3 ft., B&B.....\$6.00
Hgt. 3 to 4 ft., B&B.....9.00
Hgt. 4 to 5 ft., B&B.....12.00

JAPANESE TREE LILAC (*Syringa amurensis 'Japonica'*)
Creamy white flowers in mid-June. Trunk and older branches have cherry-like bark.

Hgt. 3 to 4 ft., B&B.....\$4.00
Hgt. 4 to 5 ft., B&B.....5.00
Hgt. 5 to 6 ft., B&B.....8.00
Hgt. 6 to 7 ft., B&B.....10.00

Star Magnolia

MAPLES

During the blazing sun of a summer day and the vibrant air of a crisp fall day, we in the Northeast recognize the Maple's greatest attributes. Dense cooling summer shade followed by blazing fall leaf color are most closely associated with our native Sugar Maple. As a young nursery tree it is usually narrow and erect, but with age, the full beauty of its wide-spreading top develops.

For extreme rapid growth, especially dense shade, plus wide spreading top on young trees, the Norway Maple excels all others. If it is planted in a lawn, occasional top thinning and removal of lower branches, combined with extra fertilizer and water, will help maintain a good turf. New leaves of the very similar Schwedler Maple emerge deep red and gradually turn dark green. In the autumn they again turn dark reddish, rather than the light yellow of the Norway Maple.

Pictured to the left are the very dark red leaves of the 'Crimson King' Maple, a newer patented form which maintains its deep leaf color throughout the season. Habit of growth and leaf shape and size are the same as the Norway and Schwedler Maples, though growth is somewhat slower. For those who want a large-growing, deep red-leaved tree this is the best selection. For dark red, rust, or light green leaf color on a very slow-growing, shorter tree, the Japanese Maples are ideal. Their dwarf nature makes them especially valuable for specimen use where space is limited.

Most Maples prefer well-drained soil. The valuable exception is our native Red Maple, named for its fuzzy red flowers along the stems before the leaves in early spring. The leaves are bright green and the bark a smooth, silvery grey.

Increased nursery planting during the past seasons has resulted in the finest stock ever offered for your selection. Why not visit the nursery soon and select one of nature's "air conditioners"? You'll find it your best investment in summer comfort.

NEW 'CRIMSON KING' MAPLE
(Plant Patent No. 735)

BIRCH CLUMP

LONDON PLANE

BIRCHES

Against evergreen backgrounds, nothing matches the winter grace of the lovely White Birches. For the whitest bark, choose the Cut-leaf Weeping Birch with tall, single stem and weeping branchlets or the European White in single stem or clump form. Our native white-barked Birches, the Paper and Grey, are long favorites for natural clump form.

SWEET GUM

Sharply erect, with regular branching, the Sweet Gum is especially valued for clean, star-shaped leaves turning bright colors in the fall and tolerance of moist soil locations. The irregular, corky ridge of bark on the branches is unique.

LONDON PLANE

Resistance to city soot, smoke and poor soil has made the London Plane the most planted tree in New York City. Its rapid growth, heavy shade and permanence recommend it highly to many homeowners. The scaling bark is an interesting mixture of cream, olive and brown.

SWEET GUM

RED OAK

HONEYLOCUSTS

Long neglected, the Honeylocusts have only in the last ten years become popular. Rapid growth and light airy shade are characteristic of the several types. The finely compound leaves permit your enjoyment of every summer breeze without sacrificing the cooling shade. If you want to preserve, and even enhance, a beautiful view while enjoying shade, the open branches and fine leaves make the Honeylocusts your best choice. Lawns thrive better under these trees than in either open sun or the darker shade of heavy-leaved trees.

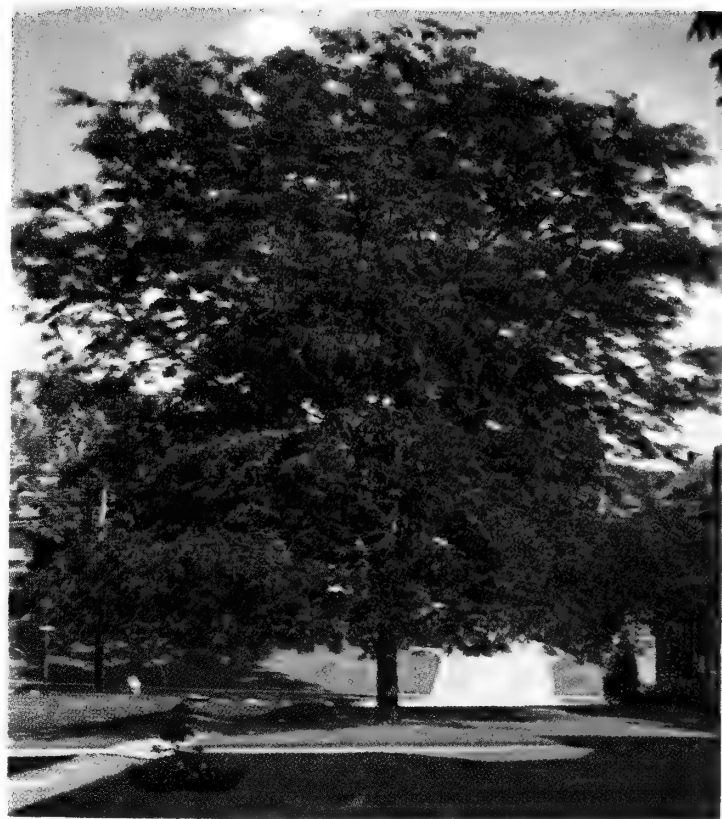

From the original Thornless Honeylocust, several outstanding new selections were made. 'Moraine' is very broad-headed, with attractive, irregular branches. The original tree pictured here is striking proof of its merit. On a lawn or terrace living area, the branches spread wide, casting a broad shadow.

'Shademaster' develops a heavier trunk earlier and arches upward in a graceful fountain-like pattern. With the same shape, it may very well be the best substitute for the American Elms, which continue to decline.

The original Thornless Honeylocust remains an excellent tree, valued especially by landscape architects for its interestingly irregular branching habit. All of the Honeylocusts are very rapid-growing and adaptable to a wide range of soil conditions.

LINDEN

Beloved in Europe, the Lindens are not quite so popular here. Best of all for this area is the Small-leaved Linden, a handsome tree with dense and regular pyramidal top. The leaves are heart-shaped and about 2½ inches in diameter, while the bark is so dark brown it appears almost black. The flowers, appearing in early July, are unusually fragrant. For the modern one-story homes, its modest growth is particularly adaptable.

'MORAINE'® LOCUST (Plant Patent No. 836)

WILLOWS

Often condemned for their overly vigorous growth, the Willows serve a definite purpose. They tolerate excessively wet soil areas, though growing better with ordinary soils.

If properly located away from houses and living areas, their graceful habit and colorful bark can be enjoyed for years. Where quick growth is needed for temporary shade until the slower growing permanent trees can take over, Willows serve a useful purpose at very low cost.

The 'Niobe' Weeping Willow is the best form for freedom from pests and attractive bright yellow bark color. An interesting novelty is the Corkscrew Willow, named for the shape of its twigs and smaller branches.

WEeping WILLOW

OAKS

The expression "Sturdy as an Oak" typifies the growth and character of these handsome trees. Though occasionally difficult to transplant, once established, no tree is more permanent.

The Pin Oak pictured here is typical, with regular pyramidal top and slightly descending lower branches. The easiest of all to transplant, it also grows somewhat more rapidly than the other species. In the fall leaves turn reddish, then brown, often hanging on into the winter.

To the left is pictured a single branch of the Red Oak. As autumn begins, the leaves turn bright, then dark red and orange before finally brown and falling off. Though more difficult to transplant, its broad, rounded top is especially handsome.

GINKGO

One of the oldest known tree species, the Ginkgo or Maidenhair Tree is outstandingly hardy, long-lived and resistant to difficult city conditions. Rather slow-growing but well worth the wait.

PIN OAK

The Peter

CASCIO NURSERY

2600 ALBANY AVE., WEST HARTFORD 17, CONN. • ADams 6-1609

B&B indicates Balled and Burlapped stock.
BR indicates Bare-Root stock.

HEDGE MAPLE (*Acer campestre*)

A dense compact tree that makes a good screen. Reaches 25 feet in height.

Cal. 1 to 1½ in., B&B.....\$15.00
Cal. 1½ to 2 in., B&B..... 25.00
Cal. 2 to 2½ in., B&B..... 35.00

AMUR MAPLE (*Acer Ginnala*)

Excellent for growing where a small, dense tree is needed. Foliage turns scarlet in autumn.

Cal. 1 to 1½ in., B&B.....\$15.00

JAPANESE MAPLE (*Acer palmatum* and *Acer palmatum* 'Atropurpureum')

Leaves emerging bright red and changing to green, rust or holding a deep maroon color. A slow-growing type especially prized for specimen use.

SCOTT LAWN CARE PRODUCTS

Lawn Seed—Turf Builder—Bonus, Weed & Feed—Halts—Cope—Kansel—Clout—Lawn Spreaders
Ready to make your lawn the best in town. Easy to apply, reasonably priced. Come in now, and let us help you solve your lawn problems.

CASCIO'S TESTED

"HYGANIC" LAWN AND TREE FOOD, 10-6-4

A long-lasting, complete fertilizer with immediately available nitrogen added to give both quick and gradual uniform growth over a long season. For established lawns use 50 lbs. on 2500 sq. ft.; on new lawns double this rate.

50-lb. bag.....\$3.95 10 bags.....\$35.00
2 bags..... 7.85

"PROFESSIONAL" 5-10-5

It's an organic formula, no-filler, 100% plant food of dried blood, fish scrap, bone meal, guano, potash, cotton seed meal, nitrate of soda, sulphate of ammonia, poultry manure and superphosphate. Use on flower beds, flowering shrubs, fruit trees, vegetable gardens and rose gardens.

50-lb. bag.....\$2.95 2 bags.....\$5.75

GARDEN CHEMICALS

CASCIO'S MULTI-PURPOSE INSECT SPRAY. The best combination liquid insecticide for general ornamental use.

CASCIO'S COMPLETE FRUIT AND ORNAMENTAL SPRAY. To protect against insects and diseases.

CASCIO'S COMPLETE ROSE SPRAY. Use it once a week to prevent insects and diseases.

CASCIO'S COMPLETE ROSE DUST. In easy pumps and squeeze dusters. Kills both insects and diseases.

CASCIO'S LAWN-WEED KILLER. Will kill most weeds in your lawn without damage to the grasses.

From BONIDE—DUPONT—ORTHO, we selected, after careful testing, their best Garden Chemicals.

CASCIO'S PEAT-HUMUS

The single best, completely natural organic soil-conditioning material to prepare soil for better plant growth. Careful comparative use at Cascio's has proven the advantages of this moist peat-humus over dry peat from compressed bales and local humus-like muck. For the first time we can now offer the best with true economy. Sealed plastic bags insure you of full uniform measure and prevent waste of time and material from handling loose bulk materials. 40-lb. bag 97c.

ORGANIC SPECIALTIES

Bone Meal; Cattle Manure; Acid Fertilizers, for Rhododendrons, Azaleas, Holly, Laurel and Dogwood; Rose Food; Tomato Food; Bulb Food; Prize Gro; Evergreen Food; Superphosphate; Tobacco Powder; Strawberry Loam

Products Recommended by Mrs. Lucian Taylor:

Horn and Hoof Meal. 1 lb. 20c; 50-lb. bag \$6.95; 100-lb. bag \$11.95.

Sulphate of Potash. 1 lb. 20c; 50-lb. bag \$6.50.

PAPER or CANOE BIRCH (*Betula papyrifera*)

This fine ornamental tree has good foliage, yellow in autumn. The bark is white, peeling in older trees. Seldom troubled by borer.

Clumps	
Hgt. 5 to 6 ft., B&B.....	\$12.00
Hgt. 6 to 7 ft., B&B.....	15.00
Hgt. 7 to 8 ft., B&B.....	20.00
Hgt. 8 to 9 ft., B&B.....	30.00
Hgt. 9 to 10 ft., B&B.....	35.00
Larger sizes on hand.	
Single	
Cal. 1 to 1 1/2 in., B&B.....	\$15.00
Cal. 1 1/2 to 2 in., B&B.....	20.00
Cal. 2 to 2 1/2 in., B&B.....	35.00
Cal. 2 1/2 to 3 in., B&B.....	50.00
Sizes up to 10-in. caliper on hand.	

EUROPEAN WHITE BIRCH (*Betula alba*)

Bark very white. Grows to 50 feet.

Hgt. 4 to 5 ft., B&B.....	\$5.00
Hgt. 6 to 8 ft., B&B.....	7.50

CUTLEAF WEEPING BIRCH (*Betula pendula* 'Gracilis')

Finely cut leaves reveal the milky white trunk. Branch tips are weeping in this striking single-stem specimen form.

Hgt. 7 to 8 ft., B&B.....	\$11.00
Hgt. 9 to 10 ft., B&B.....	20.00
Cal. 1 to 1 1/2 in., B&B.....	25.00
Cal. 1 1/2 to 2 in., B&B.....	30.00
Cal. 2 to 2 1/2 in., B&B.....	40.00

COMMON HACKBERRY (*Celtis occidentalis*)

Widely planted in some areas as a street tree. Round red fruits. Grows to 120 feet.

Hgt. 6 to 8 ft., B&B.....	\$7.50
Cal. 1 to 1 1/2 in., B&B.....	10.00
Cal. 1 1/2 to 2 in., B&B.....	15.00
Cal. 2 1/2 to 3 in., B&B.....	35.00
Cal. 3 to 3 1/2 in., B&B.....	75.00

KATSURA TREE (*Cercidiphyllum japonicum*)

Handsomely erect and slender specimen with quivering, small heart-shaped leaves.

Hgt. 5 to 6 ft., B&B.....	\$9.95
Hgt. 6 to 7 ft., B&B.....	20.00
Hgt. 7 to 8 ft., B&B.....	25.00
Cal. 3 to 3 1/2 in., B&B.....	75.00
Sizes up to 10-in. caliper on hand.	

EUROPEAN BEECH (*Fagus sylvatica*)

A very desirable large shade tree with dense habit and excellent form. Grows 80 to 100 feet tall.

Cal. 2 1/2 to 3 in., B&B.....	\$50.00
Cal. 3 to 3 1/2 in., B&B.....	60.00
Cal. 3 1/2 to 4 in., B&B.....	75.00
Cal. 4 to 4 1/2 in., B&B.....	100.00
Cal. 4 1/2 to 5 in., B&B.....	150.00

FERNLEAF BEECH (*Fagus sylvatica* 'Asplenifolia')

Delicate, finely cut leaves.

2-year grafts.....	\$2.95
Hgt. 2 to 3 ft., B&B.....	11.95
Sizes up to 10-in. caliper on hand.	

RIVERS PURPLE BEECH (*Fagus sylvatica* 'Riversii')

Good specimen tree with purple leaves. Height 70 to 80 feet.

Container grown.....	\$8.25 to \$11.95
Hgt. 1 1/2 to 2 ft., B&B.....	4.95
Hgt. 2 to 2 1/2 ft., B&B.....	5.95
Hgt. 2 1/2 to 3 ft., B&B.....	6.95
Hgt. 3 to 4 ft., B&B.....	9.95
Hgt. 5 to 6 ft., B&B.....	35.00
Cal. 9 to 10 in., B&B.....	750.00

WEeping BEECH (*Fagus sylvatica* 'Pendula')

Even slower growing and more striking than the Purple Beech are these weeping trees with green or purple leaves.

Hgt. 2 to 3 ft., B&B.....	\$12.50
Cal. 1 1/2 to 2 in., B&B.....	75.00
Cal. 2 to 2 1/2 in., B&B.....	100.00
Cal. 2 1/2 to 3 in., B&B.....	125.00

MAIDENHAIR TREE (*Ginkgo biloba*)

Large tree of moderate and extremely sturdy growth. Excellent for difficult locations.

Hgt. 6 to 8 ft., B&B.....	\$10.00
Cal. 1 1/2 to 2 in., B&B.....	35.00
Cal. 2 to 2 1/2 in., B&B.....	60.00
Cal. 3 to 3 1/2 in., B&B.....	90.00

THORNLESS HONEYLOCUST (*Gleditsia triacanthos inermis*)

Lacy-leaf, interestingly irregular top and fast growth. Hgt. 6 to 8 ft., B&B.....\$6.95
Cal. 1 1/2 to 2 in., B&B.....\$25.00 to 35.00
Cal. 2 to 2 1/2 in., B&B.....40.00 to 45.00
Cal. 2 1/2 to 3 in., B&B.....60.00 to 70.00

SUNBURST LOCUST (*Gleditsia triacanthos inermis* 'Aurea,' Plant Patent No. 1313)

Cole's new Sunburst Locust. Bright golden-bronze on tips of branches. Tree is well formed and symmetrical, with spreading habit.

Hgt. 4 to 5 ft., B&B.....	\$10.00
Hgt. 6 to 7 ft., B&B.....	15.00
Hgt. 7 to 8 ft., B&B.....	18.00

IMPERIAL LOCUST (*Gleditsia trinanthos inermis* 'Imperial,' Plant Patent No. 1605)

Graceful, spreading, symmetrically branched, compact tree.

Hgt. 4 to 5 ft., B&B.....	\$12.00
---------------------------	---------

MORaine LOCUST (*Gleditsia triacanthos inermis* 'Moraine,' Plant Patent No. 836)

Same leaf and rapid growth as the older Honeylocust but with more wide-spreading top on slender stem.

Hgt. 6 to 8 ft., container grown.....	\$9.95
Cal. 1 to 1 1/2 in., hgt. 6 to 8 ft., B&B.....	15.00
Cal. 1 1/2 to 2 in., hgt. 8 to 10 ft., B&B.....	\$20.00 to 30.00
Cal. 2 to 2 1/2 in., hgt. 10 to 12 ft., B&B.....	35.00 to 50.00
Cal. 2 1/2 to 3 in., hgt. 12 to 14 ft., B&B.....	60.00 to 75.00

SHADEMASTER LOCUST (*Gleditsia triacanthos inermis* 'Shademaster,' Plant Patent No. 1515)

More upright, vase-shaped and regular growing.

Hgt. 6 to 8 ft., B&B.....	\$10.00
Hgt. 7 to 8 ft., B&B.....	15.00
Hgt. 8 to 10 ft., B&B.....	25.00

SKYLINE LOCUST (*Gleditsia triacanthos inermis* 'Sky-line,' Plant Patent No. 1619)

Upright branching habit. Leaves dark green.

Hgt. 4 to 5 ft., B&B.....	\$10.00 to \$12.00
Hgt. 8 to 10 ft., B&B.....	15.00 to 20.00
Cal. 1 to 2 in., hgt. 10 to 12 ft., B&B.....	20.00 to 25.00

EASTERN BLACK WALNUT (*Juglans nigra*)

A very large specimen tree.

Hgt. 5 to 8 ft., B&B.....	\$10.00
---------------------------	---------

SWEET GUM (*Liquidambar styraciflua*)

Star-shaped leaves, never affected by insects, turn brilliant red and orange in the fall. Interesting corky ridge on branches of upright, tall, slender tree. Tolerates moist soil.

Hgt. 5 to 6 ft., B&B.....	\$10.00
Hgt. 6 to 8 ft., B&B.....	15.00
Cal. 2 to 2 1/2 in., B&B.....	\$50.00 to 60.00
Cal. 2 1/2 to 3 in., B&B.....	75.00
Cal. 3 to 3 1/2 in., B&B.....	100.00
Cal. 3 1/2 to 4 in., B&B.....	125.00

TULIP TREE (*Liriodendron tulipifera*)

Handsome quick-growing and tall native. Tulip-like spring flowers on older trees.

Hgt. 7 to 8 ft., B&B.....	\$15.00
Hgt. 8 to 10 ft., B&B.....	22.50
Cal. 1 1/2 to 2 in., B&B.....	35.00

AMUR CORK TREE (*Phellodendron amurense*)

Sturdy tree to 50 feet, with light gray trunk. Interesting globose black fruits in broad panicles.

Hgt. 6 to 7 ft., B&B.....	\$10.00
Hgt. 7 to 8 ft., B&B.....	15.00

LAVELL CORK TREE (*Phellodendron lavalleyi*)

Taller growing than *P. amurense*.

Hgt. 6 to 7 ft., B&B.....	\$10.00
---------------------------	---------

LONDON PLANE (*Platanus acerifolia*)

Fast-growing and symmetrical tree with large leaves casting dense shade. Tolerates city conditions.

Cal. 1 1/2 to 2 in., hgt. 8 to 10 ft., B&B.....	\$27.50
Cal. 2 to 2 1/2 in., hgt. 10 to 12 ft., BR.....	27.50
Cal. 2 to 2 1/2 in., hgt. 10 to 12 ft., B&B.....	34.50
Cal. 2 1/2 to 3 in., hgt. 12 to 14 ft., B&B.....	60.00
Sizes up to 6 in. on hand.	

RED OAK (*Quercus borealis maxima*)

Round headed, heavy leaved, and broad spreading. An aristocratic form, though slow to start.

Cal. 1 1/2 to 2 in., hgt. 8 to 10 ft., B&B.....	\$35.00
Cal. 2 to 2 1/2 in., hgt. 10 to 12 ft., B&B.....	50.00
Cal. 2 1/2 to 3 in., hgt. 12 to 14 ft., B&B.....	70.00

WHITE OAK (*Quercus bicolor*)

Especially good for moist soils. Dense foliage on a round-topped tree.

Hgt. 6 to 8 ft., B&B.....	\$10.00
Hgt. 8 to 9 ft., B&B.....	15.00

SCARLET OAK (*Quercus coccinea*)

Lustrous foliage, brilliant scarlet in the fall. Fine for landscaping.

Hgt. 5 to 6 ft., B&B.....	\$8.00
Hgt. 6 to 7 ft., B&B.....	10.00
Hgt. 8 to 10 ft., B&B.....	12.50
Cal. 1 to 1 1/2 in., B&B.....	15.00
Cal. 1 1/2 to 2 in., B&B.....	25.00

BURR OAK (*Quercus macrocarpa*)

Very large leaves on an 80-foot tree.

Hgt. 6 to 8 ft., B&B.....	\$10.00
Hgt. 8 to 9 ft., B&B.....	15.00

WATER OAK (*Quercus nigra*)

Makes a good street tree. Slender branches. Leaves fine-textured.

Cal. 1 to 1 1/2 in., B&B.....	\$20.00
-------------------------------	---------

PIN OAK (*Quercus palustris*)

Most popular and vigorous Oak. Tall, pyramidal top with massed, sharply lobed leaves hanging on late in the autumn or into winter. Tolerant of moist soil.

Cal. 1 1/2 to 2 in., hgt. 8 to 10 ft., B&B.....	\$35.00
Cal. 2 to 2 1/2 in., hgt. 10 to 12 ft., B&B.....	50.00
Cal. 2 1/2 to 3 in., hgt. 12 to 14 ft., B&B.....	70.00
Larger specimens available.	

WILLOW OAK (*Quercus phellos*)

Similar in habit and growth rate to the Pin Oak but with a Willow-like, narrow leaf.

Hgt. 6 to 8 ft., B&B.....	\$10.00
Cal. 1 to 1 1/2 in., B&B.....	20.00
Cal. 2 to 2 1/2 in., hgt. 10 to 12 ft., B&B.....	50.00

THURLOW WEEPING WILLOW (*Salix elegantissima*)

Long pendulous branchlets and foliage of fine texture. 8 to 10 ft., B&B.....\$7.50

CORKSCREW WILLOW (*Salix matsudana* 'Tortuosa')

Uniquely twisted, corkscrew-like branches identify this bushy, upright willow. Somewhat slower in growth than more common sorts.

Hgt. 5 to 6 ft., BR.....	\$4.95
Hgt. 6 to 7 ft., B&B.....	7.95

GOLDEN TWIG WEEPING WILLOW (*Salix* 'Niobe')

Graceful weeping habit. Bright yellow twigs and bark add winter interest. Tolerates wet or dry location and grows extremely rapidly.

Cal. 1 in., hgt. 5 to 6 ft., BR.....	\$3.50
Cal. 3 to 4 in., hgt. 16 to 20 ft., B&B.....	\$35.00 to 55.00
Cal. 4 to 5 in., hgt. 20 to 24 ft., B&B.....	60.00 to 75.00

AMERICAN LINDEN (*Tilia americana*)

Grows rather quickly, forming an open head. Fragrant yellow flowers.

Cal. 1 to 1 1/2 in., B&B.....	\$15.00
Cal. 1 1/2 to 2 in., B&B.....	20.00
Cal. 2 to 2 1/2 in., B&B.....	30.00
Cal. 2 1/2 to 3 in., B&B.....	40.00
Cal. 3 to 3 1/2 in., B&B.....	60.00

SMALL-LEAVED LINDEN (*Tilia cordata*)

Heavy-stemmed, modest growing tree with attractive heart-shaped leaves. Ideal lawn specimens.

Cal. 2 to 2 1/2 in., hgt. 8 to 10 ft., B&B.....	\$40.00
Cal. 2 1/2 to 3 in., hgt. 10 to 12 ft., B&B.....	50.00

SILVER LINDEN (*Tilia tomentosa*)

Handsome dense-headed tree that will withstand heat and drought. Leaves dark green above, white beneath.

Hgt. 5 to 6 ft., B&B.....	\$7.00
---------------------------	--------

BUISMAN ELM (*Ulmus carpinifolia* 'Buisman')

Pyramidal or upright tree with glossy leaves.

Hgt. 3 to 4 ft., B&B.....	\$3.50
Hgt. 4 to 5 ft., B&B.....	5.00
Hgt. 5 to 6 ft., B&B.....	7.50
Hgt. 6 to 7 ft., B&B.....	10.00
Cal. 1 to 1 1/2 in., B&B.....	15.00
Cal. 1 1/2 to 2 in., B&B.....	20.00
Cal. 2 to 2 1/2 in., B&B.....	25.00

JAPANESE ZELKOVA (*Zelkova serrata*)

Rare and very desirable shade tree. Foliage and growth habit much like American Elm; not susceptible to Dutch Elm disease. About 50 feet tall.

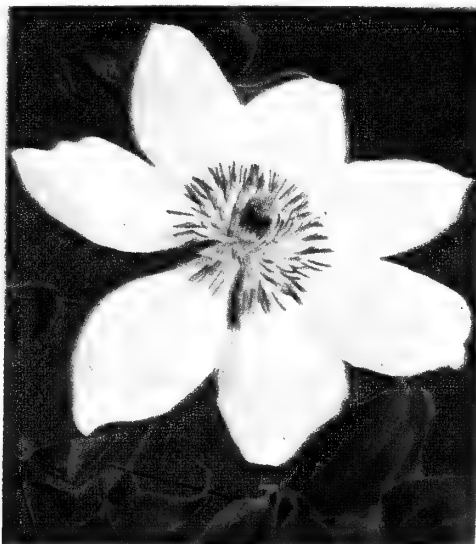

Cal. 2 to 2 1/2 in., B&B.....	\$30.00
Cal. 2 1/2 to 3 in., B&B.....	40.00

VINES AND GR

VILLE DE LYON

FIVE-LEAF AKEBIA (*Akebia quinata*). Neat five-parted leaf on vigorous twining vine for shade or sun. 2 year, Potted.....\$2.45
DUTCHMAN'S PIPE (*Aristolochia durior*). Striking large leaves on twining climber. 2 year, Potted.....\$2.45
BITTERSWEET (*Celastrus orbiculatus*). Familiar orange and red fall fruit are well known. Vigorous twining climber. 18 to 24 in., Potted.....\$2.45
SWEET AUTUMN CLEMATIS (*Clematis paniculata*). Fragrant white flowers in profusion. 2 year, Potted.....\$2.45

HENRYI

LARGE-FLOWERED CLEMATIS

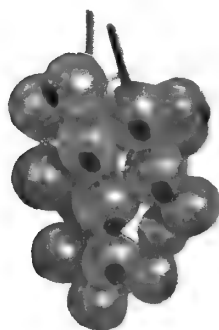

Pictured above and described below.
 2 year, 2 to 3 ft., Potted.....\$2.95
Jackmanii. The all-time favorite with four large petals of dark blue-purple.
 'Henryi.' Large pure white flowers are especially handsome in a slightly shaded garden corner.
Montana 'Rubens'. Vigorous hardy form with smaller rose-pink flowers.
 'Ramona.' Six handsome lavender-blue petals.
 'Ville de Lyon.' Striking deep red. Pictured above.

RAMONA

WINTER CREEPER (*Euonymus Fortunei 'Coloratus'*). An outstandingly hardy evergreen ground cover for exposed locations. 12 to 15 in.....95c each, 12 for \$8.95
EVERGREEN BITTERSWEET (*Euonymus Fortunei 'Vegetus'*). A round-leaved evergreen vine adapted to climbing masonry walls. Mature plants produce ivory and orange Bittersweet-like fruit. 9 to 12 in...\$1.25 each | 12 to 15 in. \$1.95 each
Euonymus Fortunei 'Radicans'. A smaller leaved variety, somewhat slower in growth. 9 to 12 in...\$1.25 each | 12 to 15 in..\$1.95 each

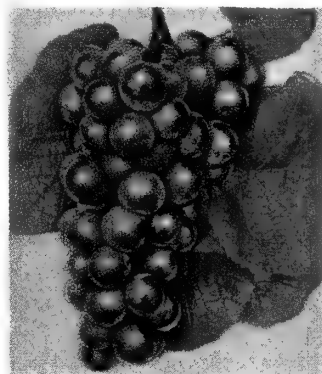

F R U I T S

CURRENTS

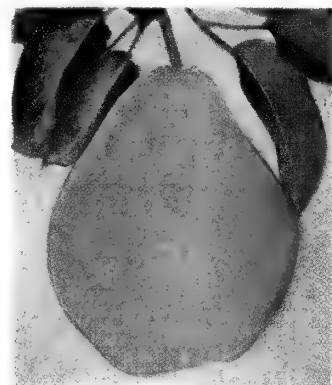

CURRENTS, Red Lake. 2 year, #1, potted.....\$1.25 each, 3 for \$2.95
HARDY GRAPES, 2 to 3 year old, potted.....Each \$1.95
 Caco. Large, wine red.
 Concord. Favorite large blue.
 Fredonia. Very early black.
 Golden Muscat. Distinctive yellow.
RASPBERRIES, 1 year old.....
 5 for \$1.75, 10 for \$2.95
 Indian Summer. Red everbearer.
 Latham. Red.
 September. New red everbearer.

These and other types available at the nursery for Spring planting.

GRAPES

APRICOT, Moorpark. Hgt. 5 to 6 ft., 2 years old.....Each \$3.95
SWEET CHERRIES. Hgt. 5 to 6 ft., 2 years old.....Each \$4.95
 Plant two or more for pollination.
 Black Tartarian. Favorite purple.
 Governor Wood. Large yellow-red.
 Napoleon. Light red.
SOUR CHERRIES, Montmorency. Best for pies. Hgt. 4 to 5 ft., 2 yr.....
 Each \$3.95
PEACHES, heavy 2-year-old trees. Hgt. 5 to 6 ft.....Each \$3.95
 Belle of Georgia. White freestone.
 Elberta. Late yellow.
 Golden Jubilee. Early yellow.
 Hale Haven. Large, yellow.

'BARTLETT' PEAR

BLUEBERRIES

BLUEBERRIES. 2 year, 18 to 24 in., potted.....Each \$1.95, 3 for \$4.95
 Five large-fruited hybrids. Plant 3 or more for cross-pollination.
APPLES. 2 years old, hgt. 5 to 6 ft., cal. 1 in.....Each \$3.95
 Baldwin. Red, winter.
 McIntosh. Red, fall.
 Northern Spy.
 Red Delicious. Western favorite.
 Yellow Delicious. Attractive color.
 Five-in-One Apple, 3 years old.....
 Each \$5.95
DWARF APPLES. Hgt. 3 to 4 ft., 2 years old.....Each \$4.95
 Full-size fruit on dwarf trees, from special root stocks. Varieties are McIntosh, Red and Yellow Delicious.

APPLE

PEARS. Heavy 2-year-old trees. Hgt. 5 to 6 ft.....Each \$3.95
 Bartlett. Early yellow.
 Clapp's Favorite. Large, yellow.
 Seckel. Small, late.
DWARF PEARS. Hgt. 3 to 4 ft., 2 years old.....Each \$4.95
 Full-size fruit on dwarf trees. Bartlett, Clapp's Favorite, Seckel.
PLUMS. 2-year-old trees. Hgt. 5 to 6 ft.....Each \$3.95
 Abundance. Large, light yellow.
 Burbank. Dark violet-red.
 Fellenberg (Italian Prune). Self-fruitful, purplish-black.

GROUND COVERS

TRUMPET VINE

JAPANESE SPURGE (*Pachysandra terminalis*). Thick-growing ground cover for light or dense shaded sites. Good soil preparation with Peat-Humus and fertilizer each year guarantees success. Plant 4 or 5 rooted cuttings per square foot, spaced evenly throughout.

25 rooted cuttings for \$1.95, 100 for \$7.50, 1000 for \$65.00.

CLIMBING HYDRANGEA

TRUMPET VINE (*Campsis radicans*). Large, bright orange-salmon trumpets grace this compound-leaved climber.

2 year, Potted.....\$2.45
ENGLISH IVY (*Hedera Helix*). Popular evergreen Ivy for walls or ground cover.

2 1/2-in. pots.....40c each, 12 for \$4.50, 100 for \$35.00

BALTIC IVY (*Hedera Helix* 'Baltica'). Smaller leaved and hardier variety.

2 1/4-in. pots.....40c each, 12 for \$4.50, 100 for \$35.00

238TH STREET IVY (*Hedera Helix* '238th Street'). An especially hardy and handsome form recommended for more difficult locations.

3-in. bands.....85c each, 12 for \$8.95

HALL'S HONEYSUCKLE (*Lonicera japonica* 'Halliana'). The familiar twining vine or ground cover with sweet-scented flowers opening white and turning yellow. Its vigorous growth makes dear friends of those with difficult banks and dire enemies of others.

2 year #1.....60c each, 12 for \$5.95, 100 for \$39.50

MEMORIAL ROSE (*Rosa Wichuraiana*). This hardy Rose has glistening small leaves on long creeping stems. For sunny locations, even in poor soil, this cover is unusual and effective. In June, white single flowers open, revealing a center of golden yellow stamens. For dormant planting only.

18 to 24 in.....\$1.45 each, 12 for \$13.50

MYRTLE (*Vinca minor*). The dark green shiny evergreen leaves of this creeping ground cover set off the blue flowers perfectly throughout the spring. Myrtle thrives in well-prepared soil, rich with Peat-Humus and lightly shaded for part of each day. Frequently combined with naturalizing Narcissus or Waterlily Tulips for handsome spring-flowering combinations. Plant 12 to 16 inches apart for good cover.

12 for \$4.25, 100 for \$29.50

White and Bowles Myrtle available in limited quantity.

WISTERIA

CHINESE or BLUE (*Wisteria sinensis*). Long, graceful, grape-like clusters of soft lavender-blue hang from this vigorous and woody vine. On older homes, Wisteria may reach several stories, yet easy pruning will confine it to a short, tree-like plant. A perfect combination with open architectural trellis, fence or overhead lattice and for natural awnings over windows or porches. Light, well-drained soil with Agri-Lime added and full sun combine to promote the best flowering. Vigorous summer shoots may be immediately pruned back to only three or four buds to promote better flowering.

3 year, 2 to 3 ft., Container Grown.....\$3.95

WHITE (*Wisteria sinensis* 'Alba'). The pure white form of the familiar Wisteria is stunning against dark green or red brick backgrounds. The slower growth makes it even more precious when established.

3 year, 2 to 3 ft., Container Grown.....\$3.95

PINK (*Wisteria floribunda* 'Rosea'). A very delicate pale pink Wisteria, charming when planted near the white, as pictured here. Though not quite so hardy as the white and blue, the pink may safely be planted in Westchester.

3 year, 2 to 3 ft., Container Grown.....\$3.95

CLIMBING HYDRANGEA (*Hydrangea petiolaris*). A slow-starting but intriguing vine for shade or sun. The bold, clean foliage is rich dark green. Short spur branches are topped by white, fragrant flower clusters.

15 to 18-in., container-grown plants.....\$4.50 each

VIRGINIA CREEPER (*Parthenocissus quinquefolia*). This native American vine is often seen on old stone walls and is recognized by the large, coarsely toothed, five-parted leaves. The growth is vigorous, providing quick cover. Bright pink and red fall leaf color are attractive.

2-year potted plants.....\$1.95

BOSTON IVY (*Parthenocissus tricuspidata* 'Veitchii'). This familiar high climber is beloved on large old masonry walls. In the summer its leaves are light green and shiny. With autumn, they turn brilliant scarlet and orange. During winter months, the tracery of its stems on stucco walls presents fascinating intricate patterns.

2-year potted plants.....\$1.95

SILVER LACE VINE (*Polygonum Aubertii*). Often called Chinese Fleece Vine for its light, cloud-like clusters of white flowers. This rapid-growing, twining vine is most often seen on fences, particularly in hot or tough city locations where it thrives.

2-year potted plants.....\$2.45

WISTERIA, PINK AND WHITE

Espalier Yew
A special plant in particular place

Home of Mr. and Mrs. Robert Etherington,
54 Mountain Brook Road, West Hartford

DO IT YOURSELF PLANTING

You may prefer to do your own planting to carry out the carefully planned landscape layout. Many do enjoy the fun of actually working the soil and planting their own gardens besides the savings from elimination of labor charges.

Planting instructions for all types of material are available for your guidance and our experienced nurserymen are happy to instruct you and answer any questions. Free partial deliveries may be readily scheduled for each weekend's work or as desired to suit your progress.

Should you need special help on larger pieces our trained and experienced planting crews are available for partial as well as complete plantings. In all ways the Cascio Landscape Team is ready and eager to help you.

LANDSCAPE

Cascio's Trained Landscape Team can help you

Just as you are concerned with the interior decoration of your home, you want similar attention to the exterior or landscape planting of your home property. A Cascio landscape planting, correlated with your own particular needs and requirements, is intelligently designed and carefully installed. This is more than mere decoration, it increases your enjoyment of outdoor living, generating a comfortable feeling of satisfaction and personal pride, along with actual increases in the overall cash value of your home and property.

Whether you are contemplating a single individual specimen for a particular location, the renovation of an overgrown or neglected planting, or a large or small new planting; all are within the interests and ability of our landscape department. From the positive placing of an individual plant to the completion of a major planting, careful attention is always given to each detail. Consultation with our landscape planners insures individual treatment designed specifically for your home property.

A visit to our nursery permits consideration of your landscape problem. Bring along a photograph or small plot sketch and a few related measurements from which we can study your particular needs and requirements. If you prefer, a personal consultation at your home will be arranged with one of our landscape planners. At your convenience he will visit with you, to study and discuss first hand your landscape problems. Whether an on-the-spot sketch is made or a more comprehensive plan developed after drawing board study, you will be given a list of suggested plants and sizes together with an estimate of their cost and installation.

If budget limitations dictate, only the most immediately important portions need be planted at first. The complete plan insures that each succeeding portion will fit together into the overall final picture without need of subsequent transplanting.

Planting of permanence and utility with maximum emphasis on ease of maintenance are the keys to leisurely living achieved from your Cascio designed and executed planting. Our landscape department is staffed by experienced landscape planting specialists, familiar with local variations in climate and soil and with a thorough knowledge of plants, their habits, requirements, and their adaptability to effective landscape design. With 100 acres of choice quality nursery stock, they choose from a great variety of evergreens, shrubs and trees to satisfy your particular needs and individual tastes. Why not visit or telephone our nursery for landscape help today?

The photograph above shows a 15-in.-caliber, 50-ft. tall Honey Locust being moved into the Aetna Life Affiliated Company's Morgan B. Brainard Memorial Garden in 1958.

PLANTING

Competent execution of Landscape Architects plans

Home of Mr. and Mrs. Austin E. Page, 116 Wood Pond Road, West Hartford

For years Cascio's has been especially privileged to serve many of the finest Landscape Architects in the Northeast. Their satisfaction and continued confidence result from superior nursery stock expertly and efficiently installed. The meticulous care taken by Cascio's landscaping crews is essential not only for your satisfaction and pride but also for maximum enjoyment of the landscaping on your home property. Designs by your Landscape Architect deserve and need this attention to insure attainment of the planned beauty and utility.

Experience landscape planting foremen form the backbone of the Cascio landscape team. Working closely with their planters they position and turn each plant to best achieve the ultimate effect, according to the Landscape Architect's design. Their care in spacing and soil preparation insures your receiving a thriving and long-lasting planting. You'll find them courteous, able and efficient.

You and your Landscape Architect are especially invited to visit Cascio's to see and select your own from the acres of growing plants. If you are unfamiliar with some of the plants suggested on your plan, you may wish to visit the nursery and examine them. We'll be happy to show you the suggested plants so that you may more fully appreciate the plan. A visit to the nursery will also help you to visualize the landscaping effect which the planting design is striving to achieve. For your consideration, complete cost estimates in detail will be made promptly and, of course, without obligation.

We are particularly grateful for the opportunity of serving so many Landscape Architects and their clients in the past and shall strive to continue to merit their enthusiastic approval.

LARGE TREE MOVING: OUR SPECIALTY

Moving large trees has been our specialty ever since we started in business. A special tree-moving truck was made to our specifications by the Gar Wood people in about 1935. It was fashioned after the conventional one except there is no A frame in the back to limit the size of the ball. With it we have moved trees all over New England. A few are shown below.

GARDEN PARTY

For 1960 the All-America Rose Selection trustees named one hybrid tea winner. GARDEN PARTY is richly deserving of the honor with Charlotte Armstrong and Peace, the two greatest roses of the century, for parents.

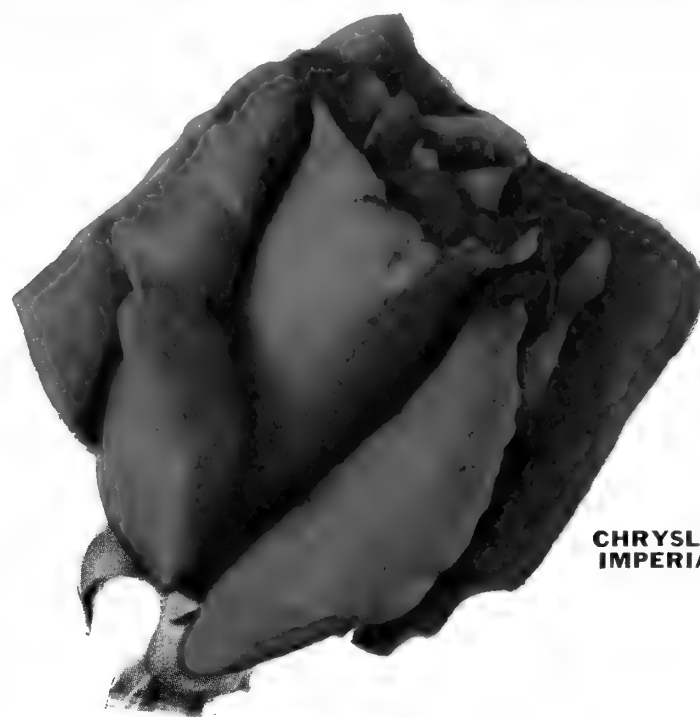

Each year we have selected for illustration here only those varieties proven best in garden testing. Some you will recognize as repeats, since no superior or even equal rose has yet been found. This year Garden Party and Aztec, truly worthy of this honor, are illustrated for the first time.

The hybrid tea roses illustrated here, plus White Knight, the 1959 All-America Rose Selection, are offered for a limited time only as a special collection for only \$35.60. See pages 30 and 31 for this special offer and our complete listing of other selected varieties.

CASCIO NURSERY

2600 ALBANY AVE., WEST HARTFORD 17, CONN. • ADams 6-1609

For 1960 the All-America Rose Selection trustees named one Hybrid Tea winner. GARDEN PARTY is richly deserving of the honor, with Charlotte Armstrong and Peace, the two greatest Roses of the century, for parents.

We have selected for illustration here only those varieties proven best in garden testing. Some you will recognize as repeats, since no superior or even equal Rose has yet been found. This year Garden Party and Aztec, truly worthy of this honor, are illustrated for the first time.

The Hybrid Tea Roses illustrated here, plus White Knight, the 1959 All-America Rose Selection, are offered for a limited time only as a special collection for only \$35.60. See pages 30 and 31 for this special offer and our complete listing of other selected varieties.

CASCIO ROSES

During 1960, The Peter Cascio Nursery offers a superior selection of all types and colors of Roses for your home garden. The prices appearing here are for Potted Roses. Bare-root Roses may be purchased for 50c less before March 15.

HYBRID TEA ROSES

The recurrent-blooming (June to October) character of these hardy Roses contributes greatly to their continually gaining popularity. This class of Roses is so thoroughly versatile with its full range of colors in the new patented varieties, as well as the always-popular non-patented selections of the past, that they afford many opportunities for striking gardens and borders. The large blooms on single stems, with plants ranging in height from about 15 inches to 4 feet, make the Hybrid Tea Roses extremely desirable for indoor floral arrangements.

ALL 12
FOR ONLY **\$35.60**

We invite your personal selection at the nursery from this list of top favorite Roses. A limited number of a few varieties not described here are also available at the nursery. Complete color pictures are on hand to help you select the varieties you desire.

AZTEC. (Plant Patent 1648.) The spectacular orange-scarlet color of this Rose has made it one of the most talked-about newcomers to the garden world. Large and beautifully formed blooms also add to its appeal. A vigorous plant, its foliage is thick and glossy.
\$3.35 each; 3 or more, \$3.00 each

CAPISTRANO. (Plant Patent 922.) A clear pink Rose with good foliage. Its delightful Rose fragrance offers gardeners a great deal of pleasure.
\$3.60 each; 3 or more, \$3.25 each

CHARLOTTE ARMSTRONG. This outstanding Rose needs little introduction. It has been in demand for more than eighteen years. Contributing to its wide appeal are the magnificent cerise-red buds, which open to very full blooms. A prolific bloomer with long stems.
\$2.35 each; 3 or more, \$2.15 each

CHRYSLER IMPERIAL. (Plant Patent 1167.) One of our favorite red Roses. Its deep crimson color is magnificently displayed in the many-petaled, large flowers. Quite fragrant. The plant has excellent foliage.
\$3.10 each; 3 or more, \$2.80 each

CONFIDENCE. (Plant Patent 1192.) The pastel coloring of this blush-pink Rose is outstanding in cool weather. The well-shaped, large blooms are worthy of exhibition. \$2.85 each; 3 or more, \$2.60 each

CRIMSON GLORY. These plants are rather low-growing and tend to spread. Its velvety-textured, very fragrant, deep crimson blooms are profuse and grow to enormous size.
\$2.35 each; 3 or more, \$2.15 each

ECLIPSE. One of the finest yellow Roses. Its long, tapering buds are golden-yellow. A good cutting plant with long stems and dark, leathery foliage.
\$2.35 each; 3 or more, \$2.15 each

GARDEN PARTY. (Plant Patent 1814.) *The All-America Rose Selections Winner for 1960* and the only Hybrid Tea Rose to win the honor this year. This newest champion is truly deserving of the award for its beautiful pastel coloring and extremely vigorous growth. An offspring of two very famous Roses, it bears the beautifully shaped, long buds of its parent, Charlotte Armstrong, opening to very large blooms of pale ivory, subtly flushed with pink on the edges, reflecting its heritage from the other parent, Peace. This handsome plant is free-branching and easy to grow. It appears to be destined for great popularity among Rose-lovers.
\$4.10 each; 3 or more, \$3.70 each

GOLDEN MASTERPIECE. (Plant Patent 1284.) Very large, golden yellow flowers distinguish this upright Rose. The long lasting blooms become more intense in color during hot summer weather.
\$3.35 each; 3 or more, \$3.00 each

HAWAII. (Plant Patent 1833.) Scores of orange-coral blooms each one over 6 inches across with a fragrant raspberry scent. One of the hardiest best growing roses.
\$4.10 each; 3 or more \$3.70 each

HELEN TRAUBEL. (Plant Patent 1028.) The long, tapering buds of this Rose are truly exquisite. It has large, double flowers—shading brilliantly from pink to apricot—and with enchanting fragrance. The plant is tall-growing and vigorous.
\$3.35 each; 3 or more, \$3.00 each

K. A. VIKTORIA. A long-time favorite Rose for accent and delightful fragrance. Snowy white flowers with lemon-tinted centers. A persistent bloomer with rich green foliage.
\$2.10 each; 3 or more, \$1.90 each

KORDES PERFECTA. (Plant Patent 1604.) Though a quite recent introduction, the unique coloring in shades of pink and creamy-white has already made it a very popular Rose. It is free-blooming and heavily scented.
\$4.10 each; 3 or more, \$3.70 each

LA JOLLA. (Plant Patent 1103.) Camellia-like flower in delicate pastel with cream and gold center and flushed pink petal tips. Plant is vigorous and grows upright.
\$3.10 each; 3 or more \$2.80 each

LOVE SONG. (Plant Patent 1360.) The flowers are rich salmon-pink blending into brilliant yellow. This Rose is free-blooming and fragrant, with large very double blooms.
\$3.10 each; 3 or more, \$2.80 each

C A S C I O

Finest variety of the

MOJAVE. (Plant Patent 1176.) The striking blend of salmon, apricot and orange adds immeasurably to the success of this Rose. Cool weather deepens the colors of the large flowers. A free-blooming, upright plant.
\$3.35 each; 3 or more, \$3.00 each

NEW YORKER. (Plant Patent 823.) Velvety, bright scarlet flowers with unfading color. This red Rose is a profuse bloomer and very fragrant.
\$2.85 each; 3 or more, \$2.60 each

NOCTURNE. (Plant Patent 713.) This Rose has a sweet fragrance and luxuriant foliage. Upright and bushy, a vigorous grower with deep crimson flowers.
\$2.85 each; 3 or more, \$2.60 each

PEACE. (Plant Patent 591.) Probably no other Rose has ever won so many honors or been so well received by home gardeners as this one. It is impossible to describe the amazing color of its particularly long-lasting blooms. When in full bloom, the flowers suggest an iridescent cream color.
\$3.10 each; 3 or more, \$2.80 each

PICTURE. Velvety, clear rose-pink blooms, slightly fragrant, with glossy dark foliage. A vigorous, free bloomer. \$2.35 each; 3 or more, \$2.15 each

PINK PEACE. (Plant Patent 1759.) As its name suggests, this Rose is an offspring of the famous Peace. Its deep dusty-pink blooms are large and very fragrant.
\$3.60 each; 3 or more, \$3.25 each

PRESIDENT EISENHOWER. (Plant Patent 1217.) Bright red blooms 4 to 5 inches across characterize this very fragrant Rose. Dark, leathery foliage.
\$2.85 each; 3 or more, \$2.60 each

PRESIDENT HOOVER. Creamy-pink buds, shading to yellow and copper, with delicious fragrance. Color tone deepens with cool weather. Flowers bloom on long stems. \$2.10 each; 3 or more, \$1.90 each

SHOW GIRL. (Plant Patent 646.) This is one of the finest pink Roses and its excellence for cutting has long been recognized. It is unusually flourishing in growth and bloom, with a delicate fragrance. Show Girl always turns in a good performance.
\$2.85 each; 3 or more, \$2.60 each

SUTTER'S GOLD. (Plant Patent 885.) High-centered blooms vary from orange to yellow and red. It is a tall, vigorous grower and bears an abundance of long-stemmed, lovely buds. A very fragrant Rose.
\$2.85 each; 3 or more, \$2.60 each

TALLYHO. (Plant Patent 828.) These blooms vary with weather from crimson to cardinal outside and pink inside. A spicy fragrance enhances this high-centered very double flower.
\$2.85 each; 3 or more, \$2.60 each

TIFFANY. (Plant Patent 1304.) A superior cutting Rose with phlox-pink blooms. A profuse-blooming, upright plant with a vigorous growth habit and outstanding fragrance.
\$3.35 each; 3 or more, \$3.00 each

WHITE KNIGHT. (Plant Patent 1359.) 1958 All-America Rose Selections Winner. This outstanding Rose has magnificent snowy-white, double blooms. The plant is very vigorous and grows upright to a height of 3 feet or more. Its flowers are characterized by heavy, waxy petals. \$3.60 each; 3 or more, \$3.25 each

TREE ROSES

A very special group in the rose family. The crowning glory of your landscape can easily be the effective placing of these tall stately canes topped with bloom. Tree roses are not to be taken for granted, for they require a little extra care, even a little coddling in the colder areas, but rightfully so, for they give abundant pleasure for the extra attention they demand.
4 varieties available \$7.50 each

I O ' S R O S E S

choicest roses of all types and colors awaiting your selection at Cascio's now.

CLIMBING ROSES

CLIMBING ROSES

The breathtaking display of color afforded by this group of Roses certainly must be responsible for their long-standing popularity. With a minimum of care there is nothing which provides quite so much beauty to the outdoors, either trailing on a fence, concealing an eyesore, or on a magnificent trellis.

Newer varieties of Climbing Roses extend the period of bloom, flower size and range of color. A superior selection is available at Cascio's to enhance your home landscaping.

BLAZE IMPROVED. "A real traffic-stopper." This flaming scarlet climber makes a brilliant show trailing on a white fence and yet takes little ground space. Flowers are medium size, in large clusters, and are semi-double. A recurrent bloomer when established.

\$2.35 each; 3 or more, \$2.15 each

BLOSSOMTIME. (Plant Patent 1240.) A delightful climber with very fragrant, cameo-pink blooms. Tall shrub which blooms freely.

\$3.10 each; 3 or more, \$2.80 each

CLIMBING CRIMSON GLORY. (Plant Patent 736.) Velvety crimson blooms on long stems distinguish this particularly good Climbing Rose. The foliage is clean and disease-resistant. An enticingly fragrant Rose which blooms recurrently.

\$3.10 each; 3 or more, \$2.80 each

DR. J. H. NICOLAS. Warm rose-pink blooms, quite large and double, like those of the Hybrid Teas, make this an all-time favorite climber. A vigorous pillar Rose often reaching 8 feet in height. Distinctly fragrant with dark, leathery foliage.

\$2.60 each; 3 or more, \$2.35 each

GOLDEN SHOWERS. (Plant Patent 1557.) A good bright yellow Rose for colder areas. The fact that it is the only All-America Rose Selections Winner in the Climbing Rose classification indicates its tremendous desirability. Attractive, glossy bronze foliage.

\$3.35 each; 3 or more, \$3.00 each

HIGH NOON. (Plant Patent 704.) Medium sized bright golden yellow buds borne singly. Continuous blooming habit through the summer.

\$2.85 each; 3 or more \$2.60 each

NEW DAWN. This slightly fragrant Rose has dramatic bluish-pink flowers. It is extremely hardy in this region and a profuse bloomer all summer into the fall.

\$2.35 each; 3 or more, \$2.15 each

CLIMBING PEACE. (Plant Patent 932.) An extremely vigorous climbing form of its renowned namesake. Blooms shyly until established, yet the amazing iridescent cream-colored flowers are well worth the patience. \$2.85 each; 3 or more, \$2.60 each

GRANDIFLORA ROSES

A relatively new group of Roses, the Grandifloras are characterized by their height and large flowers, which bloom in clusters yet have stems long enough for individual cutting. The plants often reach heights of 4 to 5 feet and are free-blooming.

BUCCANEER. (Plant Patent 1119.) An ideal Rose for cutting. Handsome blooms of clear, bright yellow, which open slowly. Plants are strong-growing and free-blooming. \$3.10 each; 3 or more, \$2.80 each

CARROUSEL. (Plant Patent 1066.) This fine dark red Rose is enjoying an impressive popularity. Non-fading blooms with delightful fragrance are only one reason for its high rating. The plants are very vigorous and extremely profuse-blooming, adding still further to its renown.

\$2.60 each; 3 or more, \$2.35 each

MONTEZUMA. (Plant Patent 1383.) The unique shading of colors is truly the most distinctive feature. The coppery bronze-orange flowers are high-centered and slightly fragrant. A tall, free-branching plant which blooms profusely.

\$3.35 each; 3 or more, \$3.00 each

QUEEN ELIZABETH. (Plant Patent 1259.) An All-America Rose Selections Winner in 1955. When in bloom, this orchid-pink Rose is truly magnificent to behold. A tall, majestic plant, its high-centered blooms are carried on long, almost thornless stems, perfect for cutting. \$3.10 each; 3 or more, \$2.80 each

STARFIRE. (Plant Patent 1742.) Truly deserving of the honor, this 1959 All-America Rose Selections Winner produces rich, bright red blooms. The well-foliaged plant with bronzy green leaves produces a holly-like composition. Buds are beautifully formed, and flowers are long-lasting when cut for indoor arrangements.

\$3.60 each; 3 or more, \$3.25 each

FLORIBUNDA ROSES

The landscape value of this group of Roses is unsurpassed. Their bushy growth and clustered flowers bursting with color make them ideal for use as hedges, borders and as foreground material in mass plantings. They require little care and, though the blooms are somewhat smaller than Hybrid Teas, they flower freely in clusters from early June until heavy frost in the fall. The Roses known as Polyanthas are also included here.

BETTY PRIOR. Great clusters of single flowers, light pink outside, deepening inside, distinguish this popular Floribunda. Blooms all season on a medium to high-growing, compact plant.

\$2.35 each; 3 or more, \$2.15 each

CIRCUS. (Plant Patent 1382.) For those who are intrigued by interesting color, this multi-color Rose is a delight. During the time it blooms, the flowers exhibit shades of yellow, pink and red. The red on the outside changes from apricot-orange to pastel pink as the flower ages, suggesting the many colors which enchant children at a circus.

\$3.10 each; 3 or more, \$2.80 each

DAGMAR SPAETH. Masses of pure white flowers continuously borne on bushy plants of medium height.

\$2.10 each; 3 or more, \$1.90 each

FASHION. (Plant Patent 789.) A magnificent performer everywhere. Buds open to double blooms of luminous pink and gold, changing to coral, then to red.

\$2.60 each; 3 or more, \$2.35 each

FIRE KING. (Plant Patent 1758.) We are pleased to present this All-America Rose Selections Winner for 1960. A distinguished addition to the Floribunda group with double scarlet, high-centered flowers. A free-blooming plant of medium height and a tendency to spread. \$3.10 each; 3 or more, \$2.80 each

FLORADORA. Abundant blooms of orange-scarlet single out this eye-catching Floribunda. Plant is quite high-growing.

\$2.35 each; 3 or more, \$2.15 each

FUSILIER. (Plant Patent 1709.) Sharp color and bushy growth habit make this Rose a favorite. Flowers are orange-red and are borne in heavy clusters. Color darkens somewhat in cooler weather. A prolific and continuous-blooming plant with dark, glossy foliage.

\$3.10 each; 3 or more, \$2.80 each

GOLD CUP. (Plant Patent 1683.) Long-lasting flowers with a delightful fragrance characterize this deep yellow Rose. It is free-blooming and vigorous, with a semi-spreading, low-growing habit.

\$3.10 each; 3 or more, \$2.80 each

GOLDEN FLEECE. (Plant Patent 1512.) Golden-yellow buds open to large, double, buff-yellow blooms. Plant is bushy and disease-resistant. A very fragrant Rose.

\$3.10 each; 3 or more, \$2.80 each

IMPROVED LAFAYETTE. Glowing red to vivid crimson. Plants are profuse bloomers, growing sturdy and upright. An excellent bedding rose.

\$2.10 each; 3 or more, \$1.90 each

INDEPENDENCE. (Plant Pat. 1036.) Blooming with all the blaze and glory of July 4th in firecracker-red flowers. A brilliant display in any garden. Old-fashioned Rose fragrance.

\$2.35 each; 3 or more, \$2.15 each

IVORY FASHION. (Plant Patent 1688.) It is easy to discover why this ivory-colored Rose was selected as a 1959 All-America Rose Selections Winner. Its blooms are large, semi-double and quite fragrant. Plant is free-blooming and disease-resistant.

\$3.35 each; 3 or more, \$3.00 each

JIMINY CRICKET. (Plant Patent 1346.) An ideal Rose for border plantings with a pert color ranging from tangerine-red buds to coral-orange open flower. A previous AARS winner, well deserving of the honor.

\$2.60 each; 3 or more, \$2.35 each

LAVENDER GIRL. (Plant Patent 1672.) Introduced in 1958, this rosy-purple to lavender Rose has a spicy fragrance and blooms profusely. Its unusual color makes it a Floribunda of specimen status. Plants are dwarf and bushy.

\$5.60 each; 3 or more, \$4.85 each

LITTLE DARLING. (Plant Patent 1581.) A distinctive Rose with the warm sunset coloring of a summer sky. Varied hues from red-orange on the outer circle, changing to shades of rose-pink, finally melting into warm yellow at the center. The plant is tall and bushy, with glossy foliage.

\$3.10 each; 3 or more, \$2.80 each

MOTHER'S DAY. A deep bright cherry red version of the popular Margo Koster. An excellent addition to our low border plants.

\$2.10 each; 3 or more, \$1.90 each

PINK BOUNTIFUL. (Plant Patent 601.) A "bounty" of soft, glowing pink blooms. Many-branched, upright plant, which grows vigorously.

\$2.35 each; 3 or more, \$2.15 each

PINOCCHIO. Long sprays of salmon-pink blooms. A popular favorite for many years. Prolific bloomer.

\$2.35 each; 3 or more, \$2.15 each

RED PINOCCHIO. (Plant Patent 812.) Distinguished by its masses of large, carmine flowers in unfading clusters. Richly scented.

\$2.35 each; 3 or more, \$2.15 each

SARABANDE. (Plant Patent 1761.) This 1960 All-America Rose Selections Winner has been honored by wide acclaim, receiving medals in Portland, Geneva, Rome and at the famed Bagatelle Gardens in France. Single flowers in large clusters of bright orange-red with a prominent center of yellow stamens. A spectacular newcomer.

\$3.10 each; 3 or more, \$2.80 each

SPARTAN. (Plant Patent 1357.) Distinctively perfect blooms of sparkling orange-red, softening to reddish-coral. Plant is sturdy and well-formed, with rich dark green foliage.

\$3.10 each; 3 or more, \$2.80 each

VOGUE. (Plant Patent 926.) Long, brilliant cherry-coral buds open to large hybrid Tea-like flowers. A hardy and vigorous grower with a delightful fragrance.

\$2.60 each; 3 or more, \$2.35 each

WHITE BOUQUET. (Plant Patent 1415.) The individual flowers of this Floribunda are gardenia-like and have a spicy fragrance. Large, opulent white blooms with yellow stamens have made it a favorite with Rose-growers.

\$3.10 each; 3 or more, \$2.80 each

OLD ROSES

FATHER HUGO'S ROSE (*Rosa Hugonis*)

Clear soft yellow flowers on fine-textured, spiny shrubs which are hardy and need no special care.
